## REDFISH ROUSER < BSWRR >

Vicious, often visual strikes from all over the Atlantic and Gulf coasts have landed blade-forward baits the reputation of redfish killers. Leave it to Bomber Saltwater Grade® to design a blade-forward bait with the components and hardware necessary to take true-targeted saltwater abuse. The REDFISH ROUSER isn't just a freshwater bait that you can "use in saltwater." It's made specifically for the teeth, twists, impacts and strength that only saltwater can deliver. Weighing in at <sup>3</sup>/<sub>4</sub> ounce, the REDFISH ROUSER gives you the extra weight for long casts and allows you to wake it high or roll it deep by simply adjusting the speed of the retrieve. The REDFISH ROUSER is available in seven skirt colors with 12 total combinations between the pre-packaged Curlytail and Paddle Tail combinations.
