

# PARK EAST

THE SAFARI TRAVEL TRADITION

A silhouette of a giraffe reaching up to eat from a large acacia tree against a sunset sky. The giraffe is on the left, and the tree is on the right. The sky is a mix of orange and red, with the sun low on the horizon. The giraffe's neck is extended upwards, and its head is near the top of the tree's canopy. The tree has a thick trunk and a dense, rounded canopy of branches.
