

Envelopes at Jet Speed!

EBSCO Media can turn around envelopes faster than ever thanks to the recent addition of a Jet Envelope Press. How fast is it?

Imagine churning out up to 60,000 envelopes per hour! David Mann, Jet Press operator, doesn't have to—he lives it. "It can be a real workout keeping up with this one. Between loading and boxing, I definitely get my exercise."

The JetPress is as versatile as it is efficient, allowing you to bleed without converting (for even greater time and cost savings) and print up to 4 spot colors at a time.

Let us print your next envelope run and experience the difference!

EBSCO Media is equipped to knock your envelopes out fast!

An Exhibition of Heartbreak

As a designer, are you misunderstood? Has your best work been snubbed by clients (or employers) who just don't appreciate your rare genius? Well, brother, you are not alone.

On October 24th, Birmingham's chapter of AIGA (American Institute of Graphic Artists) will host its annual event honoring the wrongly rejected works of suffering artists just like you. Eat, drink and commiserate at Omni Studio from 7:00 PM - 10:00 PM.

Voting is taking place now at: www.exhibitionofheartbreak.com

Go to the site, view the online gallery, and vote for your favorite. Oh, and it's not too late to enter your own work. Who knows? This might be your chance to finally get the recognition you so dearly deserve.

Lorem Ipsum Automatum!

Need dummy copy for your layouts but your Latin is a wee bit rusty? Good news! There's a wonderful little site online that will autogenerate faux verbiage for you. You specify the number of paragraphs, words, or list items needed, and the site does the rest. It's a terrific time saver that will leave your comps looking even more professional. There's also a short history of Lorem Ipsum at the site for designers who are unfamiliar with this long-established typesetting convention.

Check it out at: www.lipsum.com
