

Back by Popular Demand: EBSCO Media's FREE Adobe InDesign and Photoshop Workshop

If one of your New Year's resolutions was to master new time-saving techniques in Photoshop and InDesign, then, my friend, this is your lucky day. EBSCO Media is sponsoring another of its extremely popular FREE Adobe training events on February 9th and YOU are invited!

Join your colleagues from Birmingham and learn at the knee of the master, Claudia McCue. She'll answer your questions, from basic to advanced, in her freewheeling style that puts the "fun" in "functionally competent and then some."

Seminar Details

When?

Tuesday, February 9th, 2010
InDesign Session: 9:00 AM - 12:00 Noon
Photoshop Session: 1:30 PM - 4:00 PM

Where?

The McWane Science Center
200 Nineteenth St. North
Birmingham, AL 35203

As always, one lucky attendee will win a FREE copy of Adobe's CS4 Design Premium. The odds are good that you'll win something, so break away from the daily grind and keep your commitment to self-improvement by registering today at:

www.emseminar.com

Bring a coworker. Invite a friend. Just make sure everyone registers online so we can save your seats.

About Our Speaker

Claudia McCue is a prepress guru with 25+ years of experience. She is the owner of Practicalia, an independent training provider specializing in Adobe products, Quark Xpress, general prepress, and printing, and retouching and color correction. McCue is the author of *Real World Print Production*. Learn more about Claudia at

www.claudiamccue.com

Even Our Inks are GREEN!

You can't talk about green printing without addressing the subject of ink. The printing process is *ink on paper* after all.

You'll be pleased to know that EBSCO Media's inks—the Kohl & Madden Diamond series—were designed to

be very environmentally friendly and perform extremely well under the most demanding lithographic conditions. These process inks offer very low VOC's, a high level of vegetable oil and still set quickly on most types of paper. And as a beta tester for the Diamond series inks, EBSCO Media is intimately familiar with their use.

Want the world to know you print with green ink? You can! Just ask your EM representative for a copy of the Sun Chemical Green Technology logo (see above) to include in the artwork of your next EM print run.
