## OUR STORY

Chef Allen has been flipping burgers for over four decades. He knows how to cook a **burger meaty, juicy & savory.**

During his formative days, Allen grilled thousands of burgers for many summers at Rockaway Beach in NYC.

His straightforward joy of cooking stirred him to become a chef. Now this **James Beard Award winning chef**, who changed and inspired the culinary landscape in South Florida forever with his landmark restaurant Chef Allen's, returns to his roots of flipping **great burgers. Simple, Honest, and Authentic - made to order burgers.**

Quality matters and great burgers begin with **great ingredients** and minimal preparation. While recognizing the need for the familiar and the desire for unexpected choices, Susser has created the Burger Bar by Chef Allen for you.
