

## System Four Bind Electric VeloBind®/SureBind® finisher

### Fast and efficient finisher

This finisher is ideal for high-volume VeloBind® or SureBind® projects. Pair it next to a heavy-duty punch to increase your output. The flat surface and pressure bar hold documents (up to 3" or 750 sheets) securely in place while an internal heated knife trims and seals the spine. SureBind spines also work with sheets punched in the CombBind® pattern.

### VeloBind and SureBind spines

These spines add a smooth, book-like finish to your presentations. Both styles lock pages permanently in place without visible holes, tapes or fasteners and are perfect for mailing, filing or stacking.

## Features and benefits

- Electric push-button operation
- Built-in debind function lets you revise sheets
- Ready light indicates when binding is complete
- Adjustable paper alignment guide
- Binds documents up to 14" in length
