

HOT DOT

PREMIUM BOW SIGHT

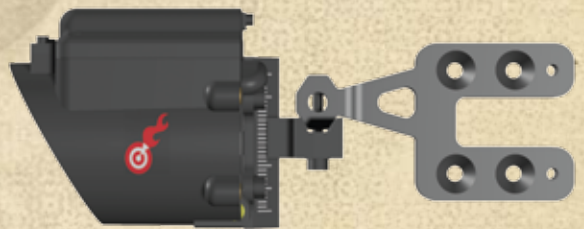

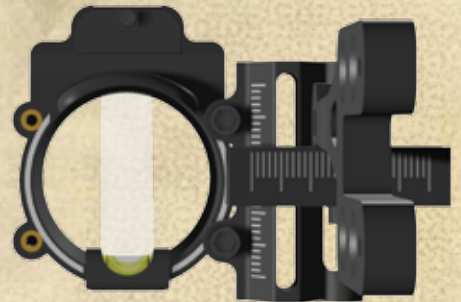

ELECTRONIC

Model 86002

HOT DOT PLUS

The latest evolution in our electronic line of Hot Dot Premium bow sights is now complete. Our updated and redesigned housing now offers an extended hood for reduced glare and protection from the elements and integrated low-profile membrane switches. Our tough polycarbonate lens targets red wavelengths coupled with the brightest LED's available for enhanced visibility. The universal mounting bracket offers rock solid stability and incremental markings for easy set up. Now with an additional 8 LED's giving you the option to toggle between Pendulum Mode and Fixed Pin Mode by simply pressing a button. The new and improved Hot Dot Plus remains on the cutting edge of innovative bow sight design.

FEATURES:

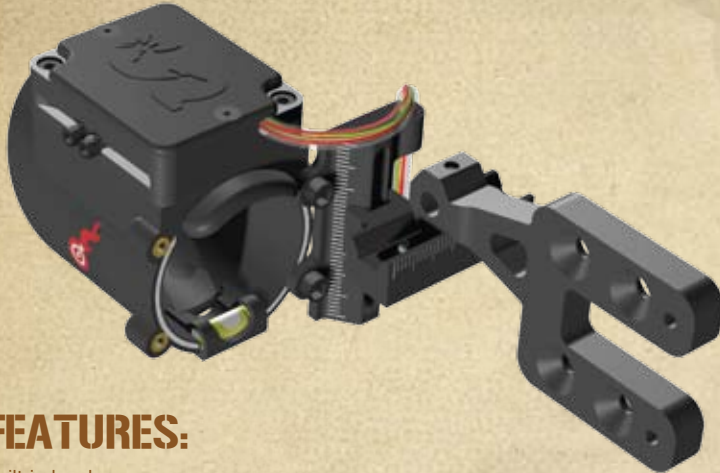

- Built in level
- Adjustable intensity on LED brightness
- Weather resistant membrane switches
- Easy to set-up user interface

FIBER OPTIC

Model 86003

HOT DOT F.O.X. (Fiber Optic Xtreme)

FEATURES:

- Built in level
- .029" Fiber Diameter
- 5 easy adjustable pins

The F.O.X. is our newly redesigned fiber optic based addition to the Hot Dot line of Premium Archery Sights. Utilizing the same polycarbonate lens for an unobstructed view of the target, the F.O.X. uses no electronics, so it's legal in all states and provinces. Comes standard with five fiber optic pins that move independently and are all hidden in the top portion of the housing. With the help of FitzFibers, each pin is outfitted with .029 diameter of the brightest fibers available today. Our redesigned and extended mounting bracket allows for increased accuracy and full view of the sight window.

ACCESSORIES

ELECTRONIC CONVERSION KIT

With our innovative, universal sight housing you can now convert your Hot Dot F.O.X. into the all new Hot Dot Plus. Have the best of both worlds by converting your fiber optic sight into a revolutionary electronic pendulum/ fixed pin LED sight.

Model 86004

FIBER OPTIC CONVERSION KIT

It's your call, start out with either the fiber optic Hot Dot F.O.X. or with the new Hot Dot Plus, yet have the ability to switch back and forth between the two. The fiber optic kit can convert your electronic Hot Dot Plus to F.O.X. by simply removing two screws.

Model 86005

OPTIONAL LIGHT FOR HOT DOT F.O.X. MODELS

Accessory light available for illuminating pins in low light conditions. Check your local game laws.

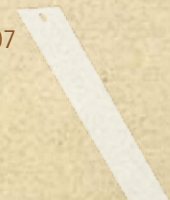

Model 86006

REPLACEMENT LENSES

All new redesigned, polycarbonate replacement lenses for the Hot Dot Plus and the Hot Dot F.O.X. Added features for increased visibility offer built in 30% reflective and 70% transmissive characteristics.
