

## Tree Descender instructions:

**Important:** You must have the Tree Descender on your person.

**Step 1.** To use the Tree Descender you will need to face the tree.

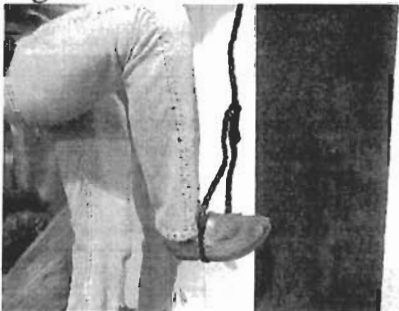

**Step 2.** Take the Tree Descender and put it around the tree. Put the large loop through the small loop (Fig 1).

Fig 1.

**Step 3.** Position the large loop so you can get your foot in it (Fig 2).

Fig 2.

**Step 4.** Stand up with or weight on the Tree Descender. This will allow you to reach your safety line or your treestand top.

**Step 5.** Loosen the safety line and work it down the tree a little. Do not take the safety line off the tree.

**Step 6.** Lean back and put your weight on your harness. This will let you move the Tree Descender down.

**Step 7.** Stand back up on the Tree Descender and continue to work your way down the tree.

**Warning:** Always use a Full Body safety harness for safety.
