SUMMIT TREESTANDS

For over 30 years, Summit has been making premium tree stands and hunting accessories. Whether you already depend on our products or are looking for better solutions for your hunting needs, you've come to the right place.

ENGINEERED TO PERFECTION.

BUILT TO LAST.

Summit tree stands are carefully engineered to be the most silent, secure, concealed and comfortable deer stands on the market. From versatile climbing treestands to adaptable tripod deer stands, all of our treestands are built to last. That's why you'll get a five-year warranty with any Summit treestand you purchase. All Summit stands are designed and engineered to meet or exceed standards set by the Treestands Manufacturers Association. Best of all, we're hunters, too, so you're getting a product that we use, our friends use and our families use.

The combination of hunting passion and engineering expertise goes a long way in explaining why Summit has lead the way in developing stands that are secure, comfortable, silent and concealed. Proof is evident in over a dozen Summit patents, not to mention countless innovations you now find throughout the industry — padded seats, bars and gun rests, noiseless plastic bushings, knobs instead of wing-nuts, welded back bar bolts — the list goes on.

DEAD METAL™
SOUND DEADENING TECHNOLOGY

NEW CLIMBING STANDS

VIPER ELITE™ SD

The New Viper Elite SD changes the way you think about a Viper stand. Weighing in at a mere 16 lbs. the Viper Elite SD is a closed front climbing stand that features a unique sling style padded seat, but the feature you will notice first is the round perimeter tube. This high tech aluminum allows us to cut weight out of the stand, yet still allows for Summit's revolutionary Dead Metal Technology to be incorporated. The solid front bar makes climbing a breeze, and works well as a gun rest.

MODEL 81111

Weight limit: 250 lbs.
Overall weight: 16 lbs.

SPECIALIST™ SD

The New Specialist SD is an open front climbing stand that takes on a revolutionary look from Summit. Weighing in at just 14 lbs., the Specialist SD is our lightest climbing stand yet. The round perimeter tube constructed of high tech aluminum is the first feature you will notice on this stand. Add that to the new sling style padded seat, and this stand will serve perfectly as the bowhunting stand of choice for years to come.

MODEL 81112

Weight limit: 250 lbs.
Overall weight: 14 lbs.

CLIMBING STANDS

VIPER® SD

Pretty good hunter for a 14 year old...

The Viper™ is our best all-round climber, with a perfect balance of roominess, comfort, features and light weight. The versatile padded seat can be raised for bow hunting and lowered for hunting with a gun — and the solid front bar makes climbing easy and works well as a gun rest. Like all Summit climbers, Viper™ features our RapidClimb™ Stirrups, QuickDraw™ and SummitLok™ technologies.

MODEL 81080

Weight limit: 300 lbs. Overall weight: 20 lbs.

**DEAD METAL™
SOUND DEADENING TECHNOLOGY**

SUMMIT GOLIATH™ SD

The Goliath is a full-featured climber for full-framed hunters. Extra room and an ample 350 lb. limit makes it the perfect stand for the bigger hunter or for anyone looking for a little extra room. A solid front bar makes climbing easy and works well as a gun rest, and thick padding on the armrests and seat make sure you stay comfortable all day.

MODEL 81082

Weight limit: 350 lbs. Overall weight: 21 lbs.

SUMMIT TITAN[®] SD

The stand for “large-and-in-charge” hunters.

The Titan is our largest climbing treestand with more room than any we've ever built before. With a wider climbing width and length and way more platform space, the Titan will accommodate the biggest hunter — or anyone who wants some extra room. The comfortable padded seat easily adjusts up and down for bow and gun hunting, and the multi-purpose solid front bar not only makes climbing easier, but serves as a gun rest.

MODEL 81083

Weight limit: 350 lbs.
Overall weight: 25 lbs.

CLIMBING STANDS

ULTIMATE VIPER® SD

A completely accessorized Viper™ featuring our incredibly comfortable Surround Seat (also available as an accessory to upgrade your current Summit stand) and a super-thick padded Comfort Mat which takes the back pain out of prolonged standing. With a fully adjustable gun rest, armrest padding throughout and a total camouflage package — including a free drop blind — you'll be hunting in comfort and stealth.

MODEL 81081

Weight limit: 300 lbs. Overall weight: 26 lbs. with accessories.

180 MAX SD

An unbelievable stand any way you turn it.

The 180° Max offers a bit more room and capacity for bigger hunters and those who just prefer some extra space. The height-adjustable Surround Seat lets you sit facing the tree or can be reversed with the seat against the tree. The premium-quality precision-welded aluminum extended-top frame is ideal for tall hunters, yet keeps the weight down to a manageable 23 lbs. The Summit 180 Max also includes a larger 6 channel platform.

MODEL 81090

Weight limit: 350 lbs. Overall weight: 23 lbs.

QUICKDRAW®

summitlokt®

DEAD METAL™
SOUND DEADENING TECHNOLOGY

RAZOR® SD

You can't have it both ways? Yes, you can.

The Razor™ provides all of the clearance of an open front stand with the climbing ease of a sit-and-stand climber. The unique folding bar allows you to sit and climb to your preferred hunting elevation — and then fold it out of the way while you hunt. The comfortable padded seat is easily removed or adjusted for height — and the spacious platform is the same size as the Viper™ and Goliath.™

MODEL 81085

Weight limit: up to 300 lbs.

Overall weight: 21 lbs.

QUICKDRAW®

STIRRUPS

summi]okt®

DEAD METAL™
SOUND DEADENING TECHNOLOGY

OPENSHOT® SD

Designed for hunters who like to pack it back into the deepest woods, the OpenShot™ weighs a scant 15 pounds. And, for a compact, ultra-portable stand, it feels plenty comfortable and roomy when you settle down to hunt. A unique folding seat is set inside the seat frame and easily folds up when you want to stand up against the tree. The padded seat then becomes a cushion for your back, allowing you to stand more comfortably for longer periods of time and with plenty of room.

MODEL 81086

Weight limit: up to 300 lbs. Overall weight: 15 lbs.

PERFORMANCE SERIES

PERCH **S HANG ON STAND**

The new Perch features a small platform for those who want to get in to their set up quickly. It also features a padded seat for all day comfort, and a folding frame that allows for a smaller profile when packed.

MODEL 82069

Weight limit: up to 300 lbs.
 Overall weight: 16 lbs.

STOOP **S HANG ON STAND**

The new Stoop features a medium sized platform and a padded seat for all day comfort. It also features a folding frame for a smaller profile when packed.

MODEL 82070

Weight limit: up to 300 lbs.
 Overall weight: 18 lbs.

SOLO PERFORMER

S LADDER STAND

The Solo Performer features quick and easy set up that one man can do, and a comfortable padded sling style seat that is comfortable all day.

MODEL 82067

Weight limit: up to 300 lbs.
 Overall weight: 40 lbs.

LEDGE **S HANG ON STAND**

The Ledge features a larger platform with an incorporated footrest, which allows you to take the pressure off of your legs on those long hunts. Add the comfortable padded seat, and this stand will allow you to sit all day in comfort.

MODEL 82071

Weight limit: up to 300 lbs.
 Overall weight: 22 lbs.

SOLO DELUXE

\$ LADDER STAND

The Solo Deluxe features a padded sling style seat with a backrest and an incorporated footrest, which allows you to sit in comfort your entire hunt. With the included removable gun rest, this stand is perfect for all hunting seasons.

MODEL 82068

Weight limit: up to 300 lbs.
Overall weight: 45 lbs.

SOLO PRO

\$ LADDER STAND

The Solo Pro features a full, roomy platform, padded bench style seat, and a gun rest, allowing you to stay from daylight till dark

MODEL 82065

Weight limit: up to 300 lbs.
Overall weight: 77 lbs.

DUAL PERFORMER

\$ LADDER STAND

The Dual Performer is the ideal two man stand to get you and your hunting buddy in the action. It features a bench style padded seat, with a padded back rest, and a gun rest.

MODEL 82064

Weight limit: 1 Man at 350 lbs
or 2 Men at 250 lbs. each.
Overall weight: 63 lbs.

DUAL PRO

\$ LADDER STAND

The Dual Pro features a full, roomy platform, padded seat and back rest, and a padded gun rest, making this two man stand the perfect stand to take your first time hunter, or seasoned partner to the stand with you.

MODEL 82066

Weight limit: 1 Man at 350 lbs or 2 Men
at 250 lbs. each. Overall weight: 87 lbs.

HANG-ON STANDS

S All Raptor Series Hang-On Stands are engineered, designed and built in Decatur, Alabama and backed by Summit's 5-Year Limited Warranty.

RSXHAWK

Soaring above the competition.

Light, compact and comfortable, the rsxHawk will hang in less than 30 seconds using Summit's innovative, Talon Bracket System. Built of precision-welded aluminum using ultra-quiet SummitLokt™ construction, the Hawk features Summit's Single Cable Spreader that eliminates the space-restricting "V" formed by 2-cable suspension systems. It's simply the most sophisticated hang-on stand ever designed and built.

MODEL 82053

Weight limit: up to 300 lbs. Overall weight: 15 lbs.

BOTH RSXHAWK AND RSXOSPREY STANDS FEATURE AN EXTRA-THICK, WATERPROOF, CLOSE-CELL FOAM PADDED SEAT THAT QUICKLY FLIPS UP AND OUT OF THE WAY TO MAKE IT EASY TO STAND WITH YOUR BACK TO THE TREE.

Single Cable Spreader Design:

- All of the Raptor Series hang-on stands feature our Single Cable Spreader design. Meaning the platform is supported by a single, self-leveling cable with a unique spreader bar below the seat. A seemingly simple feature that significantly increases the useable space on the platform by eliminating the constricting "V" formed by traditional 2-cable suspension systems. The leveling cable system makes it incredibly easy to make precise adjustments to the platform, too.

WATERPROOF, FOAM RSX SEAT

The new RSX seat for our Raptor Series Hang On Stands is made from closed-cell foam using cross link technology. To us regular folks, this means that it is a waterproof, extra-thick foam cushion that is soft enough to sit on for hours.

Summit's leveling platform is safe and secure. Height and attitude adjustments can be made quickly by moving one or both locking clips up or down a notch. Then, the single cable slides through the spreader bar to automatically level the platform.

RSXEAGLE™

Striking fear in deer...

The world's most comfortable hang-on stand features Summit's adjustable saddle-style seat which has 3" of padding and is suspended to relieve pressure points for incredible comfort during the longest hunts. The seat also flips up and adjusts for height. The rsxEAGLE also hangs easily using our Talon Bracket System — and our Single Cable Spreader maximizes space on the rsxEAGLE's extra-large platform. It's simply the ultimate in comfort and convenience.

Summit's ultra-comfortable saddle-style seat also flips up to become a padded back pad for stand-up hunting. The built-in "quick clip" secures the seat to the back pad.

MODEL 82054

Weight limit: up to 300 lbs.
Overall weight: 15 lbs.

summitokt

RSXOSPREY

Featuring rugged steel construction, the rsXOSPREY offers most of the advantages of the Raptor series aluminum hang-on stands at a lower retail price. The padded, flip-up seat and unique Single Cable Spreader makes standing with your back to the tree safe, comfortable and convenient. And, the exclusive Talon Bracket System makes hanging and removal a snap.

The innovative Single Cable Spreader bar increases the usable space of your platform by eliminating the constricting "V" of two-cable systems. With plenty of room, you can stand with your back to the tree — not sideways — and move around without fear of tripping.

MODEL 82052

Weight limit: up to 300 lbs.
Overall weight: 19.5 lbs.

LADDER STANDS

SINGLE SHOT®

The most stable, most durable ladder stand on the market today. Over-built with extra-heavy-duty thick-gauge steel, with wide, welded rungs and sturdy hand rails. With extra-thick, camouflage padded seats and a spacious platform, you won't find a more rock-solid, safer ladder stand anywhere.

Thick, padded seat and armrests are designed to be ultra-comfortable for extended periods of time. All of our ladder stands are offered in Realtree™ AP camouflage.

MODEL 82048

SINGLE SHOT® MAGNUM

With all the quality features of the Single Shot, the Single Shot Magnum offers 50% more room for larger framed hunters — or those who just want some extra room to move around. Same thick-gauge welded steel construction. Same wide, welded rungs and sturdy rails. Same ultra-stable, ultra-safe design. But, with a wider camouflage padded seat and platform.

The one-and-a-half person model is a great concept for those who like a little extra room to move around and shift positions. The thick, padded seat and armrests make this a one-man seating suite.

MODEL 82047

DOUBLE BARREL®

When hunting with a friend or loved one, you sure don't want to take chances. The Summit Double Barrel is built from the same quality materials and to the same standards — but in a two-person seating version.

Safe. Secure. Comfortable. For two.

Super-wide, bench-style seating with thick 2" padding is designed to comfortably support two hunters for extended periods of time.

MODEL 82049

TRIPODS

DELUXE TRIPODS

Designed for elevated hunting in thick brush, sparse vegetation or anywhere else you can't hang a stand. Our sturdy new Tripod is an impressive 10' high at the platform, yet provides rock-solid stability for both security and comfort. Built from powder-coated steel with a spacious steel mesh platform and integral ladder, the comfortable swivel seat allows a 360-degree view. Camouflage railing pads serve as gun rests while dampening sound. The new Tripod is also very easy to assemble in the field.

MODEL 82058

MODEL 82063

CLIMBING STEPS

BUCKSTEPS®

More than likely, you've heard somebody talking about Bucksteps. Since their introduction, they've become a hunting staple in the woods. Big enough to get both boots on while hanging your stand, but small enough not to be noticed, Bucksteps set you up to choose the best location, not the easiest.

BuckSteps provide safe, slip-proof footing, even when wearing muddy or snow-caked boots. They're designed to compactly nest together for easy packing in and out of the woods.

MODEL 82008

SWIFTTREE®

The SwiftTree provides a unique enclosed steps that provide sure footing and help prevent your boot from slipping off the side are now over-sized for easier entry and to accommodate larger, insulated boots in cold weather. Then, we welded two steps, side-by-side, at the top of each section for a more stable platform when aligning and hanging the next section.

MODEL 82050: 17' MODEL 82051: 22'

The unique enclosed steps "capture" your foot to eliminate the possibility of your boot slipping off the end of the step — providing safe, secure footing for even muddy or snow-caked boots.

CLIMBING STEPS			Weight (lbs.)	Construction	Maximum Weight Limit	Tree Size (Diameter)	Max Height	Step Size
Bucksteps	Climbing Aid	Lightweight, very mobile climbing steps	11 (4 pc)	Aluminum	260	8" to 20"	15' to 17' depending on placement	Step 7 3/4" W
Swifttree	Climbing Aid	Inexpensive climbing ladder solution	20 (3 pc)	Steel	260	8" to 20"	17'	Step 6" W
Swifttree 2	Climbing Aid	Inexpensive climbing ladder solution	27.5 (4 pc)	Steel	260	8" to 20"	22'	Step 6" W

BLIND AND CHAIR

PREDATOR BLIND

Turkey, Deer, Coyote or Antelope - If you hunt them, this blind is for you. Developed specifically for portability, our innovative new Predator Blind is compact, lightweight, and sets up quickly. The open front design gives you a commanding view while you blend into the camouflaged shell behind you. Mesh windows on each side provide 180-degree visibility without compromising concealment. Includes bush loops on side panels and leafy material on the frame to break up its profile. The entire blind can be folded away into a small convenient package in seconds. A strap for easy movement and a carry bag are included.

MODEL 87011

Height to Ceiling: 44.5" | Floor Size: 32" x 32"
Weight: 3.5 lbs.

TROPHY CHAIR®

This simple seat will open up a whole new way to hunt deer, turkeys, and lots of other stuff, too. The possibilities are unlimited. Just sling the buckle around the tree and hang it. With the ultra-comfortable seating configuration with padded arm rests, there will be no more squirming around on pickle buckets, stumps or rocks. Also great for ducks in flooded timber. Hunt in total comfort.

MODEL 82061

SAFETY HARNESSSES

WE THINK THE MOST IMPORTANT PIECE OF HUNTING EQUIPMENT YOU CAN TAKE INTO THE WOODS IS A SAFETY HARNESS THAT'S CERTIFIED TO MEET THE TMA STANDARDS FOR HARNESSSES AND TREESTANDS.

That's why we've devoted as much of our engineering expertise to developing our seat-o-the-pants™ line of safety harnesses as we have to developing treestands. Once again, our design principles of safety, comfort, silence and concealment guided the development of these must-have safety products.

Safety: Seat-O-The-Pants harnesses are safe because their tangle-free design makes them easy to put on — even in the dark — so hunters are more likely to use them. With a four-point full-body design that's completely adjustable for a secure, comfortable fit, the leg straps are configured to prevent groin injury in the event of a fall. Each safety harness includes a lineman-style climbing rope and prussic hitch that helps to maintain continuous contact with the tree to protect you from falls as you climb.

Comfort: All Summit tree stand safety harnesses are lightweight, durable and won't interfere with your shooting. Convenient slides make it easy to adjust every strap for a perfect fit so they never bind or pull or otherwise feel uncomfortable or impede your movements.

Silence: All metal components (d-rings, leg buckles) are rubber coated so they're 100% silent in the woods.

Concealment: Seat-O-The-Pants safety harnesses offer complete camouflage concealment.

FEATURES TO LOOK FOR IN A NEW SAFETY HARNESS

There's a lot of thought and engineering that goes into a good treestand safety harness, and the best subscribe to the time-proven KISS (keep it simple, stupid) principle. At Summit, we try to make everything as simple as possible — but never TOO simple. And that especially goes for our Seat-O-The-Pants Safety Harnesses.

1. **Tangle-Free Design:** A safety harness doesn't do you any good if you aren't wearing it, which is why we pioneered tangle-free designs with our SOP harnesses so they'd be easy to put on and take off. Our standard SOP harness features a handy fanny pack to store your straps when you aren't wearing the harness. With our FastBack harnesses, all you have to do is pick them up by the tether, and the harness is ready to slip on just like a vest.

2. **Lightweight & Comfortable:** Vest-style harnesses look easy to put on and take off, but that's often the best part about them. Many are heavy, hot, bulky and uncomfortable to wear — especially over a couple of layers of fleece and an outer shell. SOP harnesses are almost weightless, and once they're on, you almost forget they are there. SOP harnesses are also designed to be worn either over or underneath your hunting garments — a handy feature for cold-weather hunting when you want to rig up back in camp.

3. **Safety:** That's why you wear them, right? Our SOP harnesses quickly and easily adjust for a perfect fit so there's no binding or pinching, which is especially important if you fall. Plus, our tether straps feature sewn-in break-away pleats which pop open to lessen the shock of a serious fall, so you stay awake and alert.

S.O.P HARNESSES

Simply the lightest, most comfortable, easy-to-use four-point safety harness on the market today. The original tangle-free design, the SOP features a convenient fanny pack to store all your straps when hiking in or out. Or, you can wear it under your hunting clothes so you can rig up before you leave camp. The webbing is lightweight, 6,000 lbs. strength polyester and the low-profile interlocking buckles are coated for absolute silence. A break-away tether cushions accidental falls. Comes with a free safety rope and prusik knot.

MODEL 83068-SM / 83069-MED / 83070-LG

FASTBACK®

The FastBack™ tree stand safety harness has a lightweight, tangle-free design that will keep you cool and comfortable. It has all of the fall protection features you need but without added bulk or uncomfortable straps. You can move freely while wearing the FastBack, and the lightweight fabric back keeps you cool. Like all of our tree stand harnesses, the FastBack can be worn over or under your standard hunting clothes, so you can put it on before you leave camp. Leg and waist buckle design allows for quick and positive hook-ups. Rubber-coated D-rings allow use as a lineman-style climbing belt. Finally, the tether strap includes “breakaways” designed to absorb the shock of a fall. Comes with a free safety rope and prusik knot.

MODEL 83064-SM / 83065-MED / 83066-LG

FASTBACK® DELUXE

The FastBack™ Deluxe has all of the safety and convenience features of our FastBack, including a lightweight, tangle-free design, “breakaway” tether strap. Deluxe features include a wider belt design, mesh back for hot weather comfort and two handy side pouches to carry hunting essentials like calls, scents and other small items. Like all Summit harnesses, the Fastback Deluxe comes with a free safety rope and prusik knot.

MODEL 83071-MED / 83072-LG

SAFETY HARNESS ACCESSORIES

SUMMIT'S TREE STAND SAFETY ROPE CLIMBING SYSTEM IS ANOTHER INNOVATIVE BREAKTHROUGH IN TREE STAND CONVENIENCE AND SAFETY.

The strong, 30' braided nylon climbing rope features a pre-attached prusik hitch, which clips to your safety harness tether. The prusik hitch can then be slid up the rope while you climb to your stand, or slid back down as you descend — yet it will clinch tight in the event of a slip or a fall. This system adds an important safety component to your hunt during those critical periods when you are not seated or standing safely in your stand. The oversized rope, clip and carabiner are also easy to use when wearing gloves.

I never climb in a tree stand without my Seat-O-The-Pants harness.

-David Blanton

If I'm hunting from a tree stand, I'm wearing my S.O.P. harness.

-Tom Miranda

S.O.P. Locking Clip

This rugged locking mountaineering-style carabiner is easy to operate while wearing gloves.

MODEL 83011

S.O.P. Climbing System

Comes complete with 30' climbing rope, prusik hitch, lineman's clip and locking carabiner clip — plus a convenient carrying bag.

MODEL 83014

S.O.P. Tree Descender

In the unlikely event of a fall, our Tree Descender will make it easier to get you safely to the ground. Includes safety rope and two prussic knots for foot holds.

MODEL 83018

S.O.P. Climbing System (Combo Pack)

The combo pack includes three complete Climbing Systems (without carry bags).

MODEL 83024

S.O.P. Safety Rope

An extra safety rope with prussic knot - but not the accompanying hardware.

MODEL 83023

S.O.P. Safety Rope with Hardware

A complete safety kit with climbing rope, prusik hitch, lineman's clip and locking carabiner clip.

MODEL 83015

S.O.P. Suspension Relief System

Comes in a handy carrying pouch. Helps relieve pressure on your legs in the event of a fall.

MODEL 83049

ACCESSORIES

Adjustable Gun Rest
Fully adjustable gun rest fits most of our aluminum climbing treestands. It includes a camo padded front bar.
MODEL 85115

Adjustable Gun Rest
(Goliath, Titan, 180 MAX)
Fully adjustable gun rest fits Goliath, Titan and 180 MAX only. It includes a camo padded front bar.
MODEL 85129

Footrest Kit for Aluminum Non-Folding Treestands
Fits 4 and 5 channel aluminum platforms. Easy to install and great for relieving pressure from your legs on a long hunt. Does not fit steel platforms.
MODEL 85023

High Traction Strips
Set of 5 (five) adhesive-backed, non-skid strips. Very easy to apply and will fit all of the Summit models.
MODEL 85002

Rapid Climb Stirrups
Eliminate your toe straps. Just rest your heel on the bungee, stretch it back and insert your foot in the stirrup. Stirrups will fit any of our aluminum stands with 1" square tubing. They also fit many commercially available stands.
MODEL 85052

Universal Bow Holder
Our all metal, universal bow holder is the perfect addition for bowhunters. It clamps on in seconds and fits most Summit models plus many commercially available stands.
MODEL 85091

Deluxe Backpack Straps
Upgrade to these thick padded straps. Adjustable and easy to install. Fits many other commercially available stands.
MODEL 85162

Adjustable Backpack Straps
A set of camo backpack straps for use with any of our Summit stands. Quick-adjust buckle. Fits many other commercially available stands.
MODEL 85005

Comfort Mat
Made with comfortable high-density foam that won't hold water. Reduces stress on your feet and back.
MODEL 85155

Drop Blind
Easy to deploy and then rolls up to stow around the top bar of many of our closed-front stands.
MODEL 85152

72" Pad Kit

Single 72" pad with cable ties for most Summit stands. Also fits many commercially available stands.

MODEL 85151

Front Storage Bag

Zippered storage bags for our hunting stands. Our front storage bag will fit any Summit that has a front bar, and they also fit many other brands of treestands.

MODEL 85153

Side Storage Bags

Two zippered storage bags for your hunting stands. Bags are tapered to fit neatly under the armrests on all Summit stands. They also fit many other brands of treestands on the market.

MODEL 85154

Replacement Cables for Climbing Treestands

Instead of trying to repair nicks or cuts, purchase a brand new pair of cables for your climbing treestand. Sold in pairs. Fits all Summit climbing cable stands.

MODEL 85009

Foam Seat For Climbing Treestands

Fits most model Summit climbing treestands including: Viper, Goliath, Razor, Titan, Switchblade, Dagger, Bullet and Python. Also fits many commercially available stands.

MODEL 85147

Surround Seat

Offers full coverage enclosed seat and convenient pockets within easy reach. Fits most Summit climbing treestand models.

MODEL 85148

Raptor Series RSX Seat

Raptor Series replacement seat for Hawk, Osprey and Falcon Hang On stands. Features Cross Link Technology (RSX).

MODEL 85149

Foam Seat for OpenShot

Fits all OpenShot treestands made from 2008 to present.

MODEL 85189

Utility Straps with Tourniquet Buckle

Our multi-purpose utility strap will come in handy in many situations. This is the same strap that is included with all our treestands. Sold in pairs.

MODEL 85024

30' Bow Rope

Works great for hoisting your gun or bow. Easy to attach, tangle-free design.

MODEL 85030

Replacement Shrink Tube for Cables

Two full-length shrink tubing pieces to replace old, worn-out tubing. Heat with heat gun to apply. Sold in pairs.

MODEL 85010

Foot Rest Kit for 6 Channel Platforms

Fits all 6 channel aluminum platforms (Titan and 180 Max). Easy to install and great for relieving pressure from your legs on a long hunt. Does not fit steel platforms.

MODEL 85133
