TREESTANDS

A Word About Taking the Long View

Fellow Hunters:

Yes... it's been 25 years since Summit treestands first appeared in the sporting good stores and although that's a long time, considering the changes we've seen, it really seems shorter. Actually it's a longer time (40+ years) because it was the early sixties when things really began. Add one engineer to the whitetail hunting scene as a beginning bowhunter and no telling what will happen. It cost a lot of venison to determine that a treestand had to be stable and quiet. Learning that staying long enough near good deer sign required comfort and finally that treestand camouflage was important too. The hunting experience is what brought Summit into existence not just "let's manufacture a treestand". Engineering design and structural know-how were prerequisites in addition to hunting experience but excellent people, manufacturing technology and finally customer support got Summit to a 25 year milestone. Our track record and reputation should hopefully earn us a reputation as a quality company and now having sons and grandchildren participate in hunting should guarantee its continuation.

Years ago treestands were manufactured by simply sawing plywood, cutting tubing, drilling holes, attaching bolts and chains, etc. ("high-tech" manufacturers progressed to using rivets). Our first treestand was a camouflaged all-welded steel climber with a folding foam seat that pivoted on plastic bushings. It had what was known as a 'sissy-bar' used to maintain balance. It was 18 inches wide, climbed quiet and sold for \$150. We now have 12 patents but have also contributed much to ALL treestands in that many of our unprotected features have been used. Ideas such as foam padded seats, padded bars, arm/rifle rests, noiseless plastic bushings, knobs to replace wing nuts, welded backbar bolts, carbon fiber composite platforms, elimination of bolts and pins for tree attachment, etc. really show that we know how to add benefit to treestands.

Summit has witnessed several competing companies appear on the scene; fold-up and leave; duplicate others designs; bring new ideas; overwhelm hunters through marketing and advertising; forsake American manufacturing, etc. but realizing that change is inevitable we continue to "do our own thing" and listen to the hunters (because we too remain hunters). We will continue to design our stands for TOTAL security, comfort, camouflage and silence and bring hunters the total benefits needed to help with their success.

That's the long and short of it...

John Woller, SR. Founder

P.S. Remember our servicemen and "Don't forget, Hunt Tomorrow... Wear A Safety Harness Today".

Summit products are manufactured under one or more of the following US patents: 4,991,690 ; 5,226,505 ; 5,413,192 ; 5,937,969 ; 5,971,104 ; 5,975,242 ; 6,182,792 ; 5,979,603 ; 6,397,973 and Des. 417,011 ; 420,147. Summit MegaSampson, Bucksteps, Seat-O-The-Pants Safety Line and Rapid Climb Stirrups are patent pending.

Viper SS™

Above and Beyond

Features

1. Thick pads cover the arm rests and fill the seat and back rest so you're totally comfortable.
2. Our patented* cable system, is the best thing going in climbing treestands.
3. No more cumbersome boot straps... just slide your boots under the patented** RapidClimb stirrups
4. Complete out of the box, our stands don't require you to buy "extras" to be comfortable.

Free Full Body Harness
 And Carrying Straps

Silent. Secure. Concealed. Comfortable.
 The Viper SS from Summit is the latest in the long and successful Viper line and it packs all of our latest innovations. Of course we still use our proven SummitLokt construction which mechanically "locks" the stand together, and we still apply a tough, powder coat finish to our welded aluminum frame, but now we've added our Summit Skin technology to give you a quiet stand even while you're backpacking it into the woods. Mossy Oak's New Break-Up on the comfort pads, custom-designed seat, and Summit Skin keep you hidden while staying comfortable. The Viper SS from Summit... all the tradition and trust plus the best new features in one complete package.

New Summit Skin Included!

Our custom designed tough new sound dampening laminate includes a Mossy Oak topcoat, elastomeric foam core, and an automotive grade adhesive for total silence.

 ** Patent Pending

New Summit Skin Included!

Our custom designed tough new sound dampening laminate includes a Mossy Oak topcoat, elastomeric foam core, and an automotive grade adhesive for total silence.

Features

1. Wide top section gives you more room... where you really need it.
2. Curved arms provide a great arm rest while giving you a secure feeling.
3. Patented* RapidClimb stirrups mean you don't have to bend over to pull on boot straps.

4. Tapered seat pad won't bite into the sides of your legs... you'll be able to hunt longer.

The Goliath SS is a full featured stand that is also full-sized. This stand ends your search for a great climbing and hunting stand that fits a bigger hunter. The full-sized hunter will appreciate a beefed up top section able to support up to 350 pounds. Get a look at that top section, it's wider than normal which means you'll stay comfortable so you'll be able to hunt longer. Our RapidClimb stirrups mean you don't have to bend over to pull on boot straps and this stand is built tough and TMA-tested so you can finally feel secure that you're in a stand designed with you in mind. Relax, the Goliath SS is all the treestand you'll ever need...and more.

Promoting Treestand Safety

Do you need a sit-down stand-up climber but you've always been an open front hunter? Then we've got the solution: it's the Razor SS from Summit. If you're tired of wrestling with hand-climbers but want the freedom of an open-front climbing treestand, the new Razor SS fills the bill. Just secure the climbing bar and go, then fold it up under you and out of your way to hunt. Comfort has never been taken lightly at Summit, so you can count on this stand to be all-day compatible. Custom foams designed to fit you assure complete satisfaction while sitting.

The new Razor SS. All of what you want, none of what you don't.

And Carrying Straps

Features

1. Nylon bushings at pivot points keep the Bullet SILENT!
2. A threaded knob, not a pin, gives the Bullet strength and silence.
3. See-through design blends with the branches of a tree.
4. Silently slide the coated cable and stops into the slot for easy tree adjustment.

The Bullet SS is Summit solid,
Summit stable and Summit
quiet AND it folds
flat.

Comfort? We're
famous for it. Thick
cushions in the seat and back rest
give you the best seat in the woods.
It's also tapered on the sides so it
doesn't "bite" into your legs. Value?
Check out the other stands available
that fold flat. Feature for feature, why
would you buy anything else? **NOTHING**
compares to a Summit.

The Bullet Backpacker SS.
It's got all of the good stuff you've
come to expect from Summit,
in a stand that folds flat.

New Summit Skin Included!

Our custom designed tough new sound dampening laminate includes a Mossy Oak topcoat, elastomeric foam core, and an automotive grade adhesive for total silence.

Broadhead SS™

Weight: 21 lbs.

Weight Limit: 300 lbs.

Seat height: Adjustable

Tree size: 8 to 20 inches

Overall Length: 20" wide by 36" long

Platform Area: 20" wide by 28 3/4" long

Seat Frame size: (inside) 19.75" wide by 18" long

Seat Size: (base) 18" wide by 12" long (back rest) 12" wide by 20" long

Clean and Compact

Features

1. Pivoting arms and v-brace fold flat for packing in and out.
2. Shoulder-friendly ErgoArms eliminate fatigue, keeping you comfortable longer.
3. Secure the v-brace with the attached knob and you're ready to climb... no pins to hassle with.
4. 8,000 pound cable won't drag up the back of the tree, yet it is flexible enough to grab and hold.

What would be your dream open front stand? Would it be ultimately portable, would it be bowhunter-friendly? The Summit Team wraps up all of these qualities in a package we call the Broadhead Backpacker SS. With its comfort and compactness you're able to go in farther and stay longer than with any other treestand.

The Broadhead Backpacker SS. An open-front, flat-folding treestand that gives you the flexibility you need when whitetail patterns change.

Free Full Body Harness
And Carrying Straps

New Summit Skin Included!

Our custom designed tough new sound dampening laminate includes a Mossy Oak topcoat, elastomeric foam core, and an automotive grade adhesive for total silence.

Features

1. Unbelievable seat and back rest assure your comfort on those all-day rut hunts.

2. Reversing the seat allows you to use the tree for cover or as a secure gun rest.

3. V-Brace gives you a super-rigid climbing treestand that won't flex.

4. Sit facing the tree or facing away from the tree... life's full of choices.

New Summit Skin Included!

Our custom designed tough new sound dampening laminate includes a Mossy Oak topcoat, elastomeric foam core, and an automotive grade adhesive for total silence.

The Summit 180° SS will eliminate looking over your shoulder. The unique climber allows multiple seating positions so you don't have to choose. Never has climbing been easier or hunting more comfortable than with this new stand. You climb using the stand-up, sit-down method, then choose which way you want to face. Gun hunters may want to face the tree, and bowhunters may opt to sit facing away. Either way, you're super-comfortable.

The new Summit 180. From its tree-gripping grip strips to the 8,000 pound cable that secures it to the tree, you'll be satisfied, stealthy, secure, and successful.

Seat Size: (base) 18" wide by 12" long (back rest) 12" wide by 20" long

FIVE
YEAR LIMITED
WARRANTY

Features

1. Seat/hand climber combination makes this stand unbeatable for way-back whitetails.
2. Smaller platform easily maneuvers around knots and small limbs... quietly.
3. Patented* RapidClimb stirrups mean you've got total control over the platform as you climb.
4. Thick-padded seat cushions provide surprising comfort and warmth.

It's also compact. it's also lightweight. It's the OpenShot... a climbing treestand taken to a new level.

With its integrated seat/hand climber, the OpenShot gives you new options in your treestand arsenal. Either sit on the seat at hunting height, or spin it around and out of your way for the ultimate whitetail perch. Either way, you're totally silent and extremely secure.

It doesn't matter how far you've got to hike... the OpenShot will let you get there. And once you're there, the whitetail world will be right at your feet.

Seat Size: (Front) 4" wide by (Back) 12" wide 18" deep.

Copperhead Compact™

Reliable and Relentless

Features

1. You would expect a 12 pound stand to be flimsy... this stand is solid.
2. Tapered seat design doesn't bite into your legs which gives you more time in the woods.
3. Seat will fold completely out of your way, freeing the platform for more maneuverability.
4. Super-tough strap with an easy adjustment system hangs in seconds, and adjusts for leaning trees.

The perfect tree to climb. Rare these days. Sometimes you just have to use a hang-on. Why not try a Copperhead Compact?

Our unique system consists of a quiet strap (even stronger than big chains) and a receiver bracket on the stand. What does this mean? It means you can hang straps all over the woods and just one treestand. Multiple locations for minimal cash. At 12 pounds, the Copperhead Compact is a breeze to pack, and this year it FOLDS FLAT.

The seat folds down so you can use the included backpack straps to hike long and far.

The Copperhead Compact. An easy-hangin', hard-huntin' stand.

Basic System™

Weight: 16 lbs.

Weight Limit: 260 lbs.

Seat height: Adjustable

Tree size: 8 to 20 inches

Platform Area: 20" wide by 30.5" long

Excellent and Effective

The Basic System is a great new way to add value to your hunting equipment. This effective platform is designed to be stable and quiet all without breaking the bank. This platform is not a paired down, flimsy version that would just leave you frustrated, this is the full featured core of our System hang-on line. Our high strength ratchet strap allows you to hang the strap and then easily hang the platform. The unique strut design ensures that when you find the perfect tree, even if it leans, you'll be level and solid.

The new Basic System from Summit... a solid performer for every location.

Features

1. High strength ratchet strap for positive attachment.
2. Sturdy steel mesh platform is rock solid.
3. Innovative strut design allows adjustment for leaning trees.
4. Chain limits how far the strut can deploy even if the platform is lifted.

FIVE
YEAR LIMITED
WARRANTY

Free Full Body Harness

Features

1. Sit in comfort, then fold it back when you need to stand or when you bring it in.
2. Padded armrests give comfort and a solid gun rest.
3. Multiple foam contours and densities make our seat the best there is.
4. New spring buckle quick attach strap makes setup easy and quiet.

Our new Trophy System is the premier setup for ultimate seated comfort. This full size suspended webbing seat is the same type as on our climbers and will give you the same proven support without biting into the back of your legs. The generous platform is easy to hang because the high strength ratchet strap and bracket hang first, then just place and tilt the platform up to level. Use the strut to adjust for leaning trees and enjoy the best hang-on in the woods.

With a folding seat, adjustable platform, and an easy hang ratchet, the Trophy system will help you be in the right place at the right time.

New Trophy System
seat folds flat

sit and strike

Trophy SystemTM

Weight: 24 lbs.
Weight Limit: 260 lbs.
Seat height: Adjustable
Tree size: 8 to 20 inches
Platform Area: 20" wide by 30.5" long
Seat Frame size: (inside) 20" wide by 12" long
Seat Size: (base) 18" wide by 12" long (back rest) 12" wide by 20" long

FIVE
YEAR LIMITED
WARRANTY

Features

1. Two adjustable straps let you lower, raise, lengthen and angle this seat like a lounger.
2. The front support bar connects to the platform and silently folds back out of the way when you stand.
3. High strength ratchet strap system lets you hang the strap first.
4. Support strut secures to tree and includes chain to limit deployment.

The Comfort System transforms the Basic platform to a hang-on with something close to a recliner seat. This all-day seat has a two strap tree adjustment that will let you adjust until it fits you like a glove. With that kind of comfort you'll be able to stay still and quiet longer. The seat gets out of the way quickly when you need it, and the platform is rock solid.

The Comfort System...a laid-back type hang-on stand complete with Summit performance.

Large and In-Charge

Free Full Body Harness

Features

1. Two post steel tubing "backbone" gives the Deer Deck strength
2. Thick padded seat ensures you can stay still and quiet.
3. Three adjustments let you level the platform on leaning trees.
4. Huge steel platform makes it easy to move around and feel comfortable.

We needed a new name for our new hang-on with an enormous platform. The only suggestion that matched the size was Deer Deck. If you've ever imagined standing on your back deck to hunt, well this is about as close as it gets. This stable steel platform uses our new hanging system which attaches a two post steel backbone with two high strength ratchet straps. Our thick padded seat is Summit comfortable and will push easily back out of the way when you stand.

The new Deer Deck...a great, BIG, hang-on stand.

Integrated stable gunrest includes a swiveling top V and lowers for easy entry and exit.

1

You've got a new way to go after game this year. The Predator Pod from Summit is the answer when you need to be in the dense scrub, but off the ground. Think of all the cut overs, field edges, gullies and valleys you could open up if you had a way to get up off the ground, exactly when and where you needed. Solid steps on one rung, and footrest steps on all the rungs, means you'll find the perfect angle and adjustment. The swiveling seat and pivoting gunrest allow you to get into the stand quickly and move silently into position. Its wide tripod stance is stable and the clearance underneath lets you put it where most stands simply won't go.

You won't know how you missed all of all those great spots where the Predator Pod would be just right, until you own one.

The new Predator Pod from Summit...now there's nowhere for game to hide.

Features

1. Integrated stable gunrest lowers for easy entry and exit.
2. Silent pivoting seat lets you swing 360° so you're never out of position
3. Buckstep™ style steps are easy to climb.
4. Tripod frame is light enough to carry yet rock solid.

3

4

Mobile and Multipurpose

Predator Pod™

Weight: 40 lbs.

Height to Shooting Rail: 11 ft.

**FIVE
YEAR LIMITED
WARRANTY**

- Features**
1. 18 feet and solid, this ladder will make you feel right at home up in the air.
 2. Three sections using bolt through couplers ensure strength.
 3. Easy to setup, the ratchet straps wrap behind the tree and cross for tension.
 4. Same all day comfortable seat you've come to appreciate from Summit.

Eighteen feet up. Slight wind out of the east. This is about as far from the corporate world as you can get.

The Single Shot combines our proven construction techniques with good value to give you a ladder stand that no others can compare to. It's simple to set-up, but has the engineering know-how to keep it solid and stable.

Our SofaSeat will keep you comfortable and still, two whitetail hunting attributes that go hand in hand. You'll hunt longer because your backside won't go to sleep and send you in early.

The Single Shot. The best ladder stand available...period.

Free Full Body Harness

Up and Over Single Shot™

- Weight: 92 lbs.

Bucksteps™

Patent Pending

Grip and Grab

Features

1. Bucksteps stack together to form a packable, quiet, and low-profile way to get to your stand.
2. Extruded "steps" are plenty big for today's big boots and provide plenty of grip.
3. Twisting, turning, leaning trees are handled with ease due to the Bucksteps' design.
4. Easily climb to fifteen feet with four sections.

Sneaky. Silent. Unseen.
Sounds like a huge buck?
Also sounds like Buck-
steps from Summit.

More than likely, you've heard somebody talking about Bucksteps. That's not surprising, since they're just the slickest thing to hit the whitetail woods in a long time. Bucksteps are big enough to get both boots on for hanging stands, but small enough not to be noticed. They'll hang just about anywhere too, which makes for some awesome thicket hunts.

Bucksteps. They'll get you headed in the right direction to bag the buck of your dreams.

FIVE
YEAR LIMITED
WARRANTY

Features

1. Enclosed foot steps provide sure footing and won't let your boot slip off the side.
2. Tubular steel provides a rigid, non-flexing backbone on the SwifTree.
3. 3 slip-fit sections allow you to climb to seventeen feet... plenty high for hang-on stands.
4. U-shaped stand-offs give you plenty of room for today's big hunting boots.

Enclosed, sure footing all the way to the top... that's what you get with the SwifTree Climbing Pole from Summit.

Ever felt uneasy about climbing screw-in steps? So did we until we came up with the SwifTree. The unique enclosed steps provide sure footing and help prevent your boot from slipping off of the side. Even in total darkness you can "feel" the correct place to step as you're climbing into or out of your hang-on stand. A backbone of rigid steel gives you a solid, stable climb, too.

The SwifTree. It's a no-nonsense approach to successful whitetailing. Look for it this year and see if you don't agree.

Fast and Folding

Features

1. Arm rests are cushioned and designed to reduce shoulder fatigue while providing a solid rifle rest.
2. High-strength webbing threaded back through a thumb actuated spring buckle makes adjusting the Trophy Chair a breeze.
3. Thick seat and back rest cushions allow you to sit for hours... especially handy for turkey season.
4. Works great with hang-on stands, permanent stands, on the ground, etc...

The perfect spot. Lots of sign. Big buck using the area. Not a tree within sight to climb. Try a Trophy Chair.

This simple seat will open up a whole new way to hunt deer, turkeys, and lots of other stuff too. The possibilities are unlimited. The Trophy Chair, with its padded arm rests, seat and back, hangs on a tree in seconds. Just sling the hook around the tree and hang it. Leave it high, low or anywhere in between and stay comfortable for hours. No more squirming around on pickle buckets, stumps or rocks.

The Trophy Chair. Use it once and you'll use it forever.

Seat-O-The-Pants™

SIMPLY THE BEST HUNTING HARNESS YOU CAN BUY

*Tested, Tough,
and Trusted*

Seat-O-The-Pants. Each and every time safety and treestands come up, you'll hear this name. That's because there is no better full-body harness available.

If you've ever been to a hunting show and have seen Keith Jones jump out of a tree, you'll appreciate the hunting expertise and engineering that go into each and every SOP product. Shock-reducing tethers, new easy-to-use buckles, and silent operation keep the SOP name at the forefront of treestand safety. Innovations like a high tether so you're able to wear it under or over your hunting clothing, mean SOP is the leader in harness design.

It doesn't matter whether you're a first-time hunter or a seasoned veteran, the Seat-O-The-Pants line will keep you safe.

The SOP

Shown here in Mossy Oak camo the SOP has all the features you look for in fall protection. It's quiet, it's comfortable, it's easy to use and it will keep you from hitting the ground. Just one more thing; the design of the leg straps means they won't bite you (where you DON'T want to get bit) in the event of a fall.

Unique patented* prussic hitch assembly gives you a totally adjustable safety line....adjust it to YOUR needs.

*Patent Pending

The Fastback

The SOP Fastback has all of the features of the regular SOP harness... with a unique spin. It has an integrated mesh back that keeps it from tangling. No more fighting with unruly straps; just pick it up by the tether and put it on.

All SOP harnesses feature rubber-coated D-rings for use as a lineman-style climbing belt. It's great for hanging stands and trimming lanes.

Shoot 360° with NO HARNESS INTERFERENCE!!!

The Supreme X6

The SOP Supreme is designed for hunters who just don't like the thought of ANY straps to deal with on a full-body harness. It has the features of the regular SOP harness all packed into a design that is light weight, tangle-free, and comfortable to wear. It also has a large pocket for stowing extra safety ropes or other gear. MOSSY OAK camo.

New buckle design allows for quick and positive hook-ups

2006 ACCESSORIES

Please ask your dealer or see our website for a more complete listing of accessories.

85000 ■ Back Bar Knobs ■ 5/16 thread diameter. Fits most stands prior to 1996. Check thread size before ordering. Sold in pairs

85001 ■ Back Bar Knobs ■ 1/4 thread diameter. Fits Bullet and Broadhead Backpacker Treestands. Fits some older stands. Check thread size before ordering. Sold in pairs.

85002 ■ High Traction Strips ■ Set of 5 adhesive backed, non-skid strips. Easy to apply and fits all models.

85005 ■ Adjustable Backpack Straps ■ A set of camo backpack straps for use with any Summit Stand. Quick adjust buckle. Fits many other Commercially available stands.

85007 ■ Gun Rest ■ Pivoting gunrest for use on Summit Stands with permanent Front Bar. Also works on many commercially available stands. Complete assembly.

85009 ■ Replacement Cables for Climbing Treestands ■ Instead of trying to repair nicks or cuts, purchase a brand new pair of cables for your climbing treestand. Sold in pairs. Fits all Summit cable stands.

85010 ■ Replacement Shrink Tube for Cables ■ Two full-length shrink tubing pieces to replace old, worn out tubing. Heat with a heat gun to apply. Sold in pairs.

85020 ■ Air Seat for Climbing Treestands ■ Fits all model climbing stands. Full backrest. Original equipment on 2000 model stands. Includes 3 bar slides for assembly.

85023 ■ Footrest Kit for Aluminum (non-folding) Treestands ■ Platform channels must be closed shape that run side to side, not front to back. Eliminates pressure on the back of your legs. Also fits 2004 and newer Backpacker Model stands. Easy to install.

85024 ■ Utility Strap with Tourniquet Buckle ■ Our multi-purpose utility strap will come in handy in many situations. This is the same strap that is included with all our treestands. Sold in Pairs.

85026 ■ Footstrap Kit for Aluminum Stands ■ Fits aluminum models only. Does not fit 2004 or newer platforms.

85030 ■ 30' Bow Rope ■ Works great for hoisting your gun or bow. Easy to attach, tangle free design.

85037 ■ Foam Seat for Trophy Chair ■ Replacement foam seat for Trophy Chair ONLY. Full backrest.

85042 ■ Gun Holder ■ Our gun holder is designed to hold many different models of rifles, shotguns and muzzle loaders. Two pieces attach to your treestand arms to securely hold your firearm.

85044 ■ 2003 Headhunter Strap ■ Summit Headhunter Series Hang On Treestand replacement attaching strap. For 2003 models ONLY.

85048 ■ Buckstep Replacement Straps ■ Set of replacement straps for the Buckstep tree steps. Adjustable with spring loaded buckle. Sold in sets of 4.

85049 ■ Footrest Kit for 2003 Folding Stands ■ Fits 2003 Bullet and Broadhead platforms only.

85051 ■ In-Line Cable Ties ■ Great for adding camouflage to your treestand, ground blind, duck blind, etc. The in-line design eliminates scrapes from trimmed off ends. Set of 8.

85052 ■ RapidClimb Stirrups ■ Eliminate your toe straps. Just rest your heel on the bungee, stretch it back, and insert your foot in the stirrup! RapidClimb stirrups make GREAT upgrades to existing Summit climbers! They will fit any of our aluminum stands with 1" square tubing. They also fit many commercially available stands.

85053 ■ 2004-2006 Hang on strap ■ Replacement Copperhead/HH X4, X5 Hang-On Strap. Fits ONLY 2004-2005 and 2006 Copperhead Compact.

85055 ■ Front Storage Bag ■ Zippered storage bag for your hunting stands. Our front storage bag will fit any Summit that has a front bar and they also fit many other brands of treestand!

85056 ■ Side Storage Bags ■ Two zippered storage bags for your hunting stands. Bags are tapered to fit neatly under the arm rests on all Summit stands. They also fit many other brands of treestands on the market.

85057 ■ Deluxe Backpack Straps ■ Upgrade to these thick padded straps. Adjustable and easy to install. Fits many other commercial available stands.

85061 ■ ClearShot / Copperhead Foam Seat ■ Fits 2004 or newer ClearShot and Copperhead treestands.

85063 ■ Reversible Blind ■ Perfect for those cold winter hunts. Elastic conforms to your body and gives plenty of freedom for shots all around the tree. Mossy Oak Snow camo on one side and Mossy Oak Break-Up on the other.

85064 ■ Arm Pad Kit ■ Pair of 12" camo arm pads with cable ties. Mossy Oak Camo.

85069 ■ 72" Pad Kit ■ Single 72" pad with cable ties for Goliath and Summit 180. Mossy Oak Camo.

85070 ■ OpenShot Foam Seat ■ Fits 2004 and newer OpenShot treestands.

85071 ■ Summit 180 / Single Barrel / X-Pod Foam Seat ■ Hard, single piece backrest. Quick-change buckles.

85072 ■ 36" Pad Kit ■ Single 36" and two 12" pads with cable ties for Viper. Also fits many commercially available stands. Mossy Oak Camo.

85073 ■ 18" Pad Kit ■ Single 18" and two 12" pads with cable ties for Bullet, Python and Razor. Also fits many commercially available stands. Mossy Oak Camo.

85074 ■ Ladder Strap Kit ■ Replacement ratcheting straps for Summit ladder stands. Includes two extra long straps and two ratchets.

85075 ■ Climbing Treestand Foam Seat ■ Fits most model Summit Climbing stands including Viper, Goliath, Razor, Bullet, Python and Cobra. Full backrest and new quick release buckles.

85076 ■ Deer Deck / Deer Deck Lite Foam Seat ■ Fits Deer Deck and Deer Deck Lite only.

85077 ■ Comfort System Foam Seat and Support Bar ■ Fits Comfort System and Basic System. Includes attachment straps.

85078 ■ Predator Pod Foam Seat ■ Fits Predator Pod only.

85082

85082 - **Buckstep Carrying Bag** ■ Carry your Bucksteps in this storage bag. Includes large camo bag with zipper, drawstring and shoulder strap.

85092

85092 - **Deer Deck / Deer Deck Lite Strap** ■ Replacement heavy duty ratchet strap.

85091 - **Universal Bow Holder** ■ Our new all metal, universal bow holder is the perfect stand addition for bowhunters. It clamps on in seconds and fits most Summit models plus many commercially available stands.

85091

85090 - **Summit Skin Accessory Package** ■ Upgrade your stand with this self adhesive, sound dampening covering. Great for reducing noise while adding camo to your stand. Kit includes enough material for a platform and top.

85090

81062 ■ Aluminum Climbing Platform Assembly

81064 ■ Openshot Aluminum Climbing Platform Assembly

We know there are times when you need to purchase just a top assembly or a platform. Whether it's to replace one that has been damaged, lost or stolen, or just to try a new combination, we offer each section as a separate part.

81054 ■ Goliath SS Top Assembly

81053 ■ Viper SS Top Assembly

81060 ■ Bullet SS Top Assembly

81061 ■ Broadhead SS Top Assembly

81055 ■ Razor SS Top Assembly

81059 ■ Summit 180° SS Top Assembly

81048 ■ Openshot Top Assembly

81063 ■ Bullet/Broadhead Aluminum Climbing Platform Assembly
