

SRW 360 comfort

Combined electrical punch and manual closing machine for RENZ RING WIRE® wire comb binding in 3:1 pitch

The compact electric punch, binds manually. An inexpensive solution for shorter and medium-sized runs. The punching cycle uses a foot switch. 42 selectable punching dies, variable margin for perfectly adjusting to format, up to 36 cm. Punches up to 22 sheets (2.2 mm) and binds up to 135 sheets.

Features

- ergonomic work flow from top to bottom
- wire holder for binding elements
- comfortable and easy inserting of the pages when binding
- best cutting pressure ratio
- thanks to its modular construction, the SRW 360 can be upgraded with an electric drive, creating an electric punch and manual closing machine
- compact, strong construction
- quality "Made in Germany"

Technical Data

Article no.:	27310100
EAN:	4029126342012
Working width:	max. 360 mm
Punching thickness:	max. 22 sheets (70/80 gr./m ² paper)
Book thickness:	max. 13,5 mm (135 sheets)
Punch and binding capacity:	max. 200 books/h (depending on product, logistics and operator)
Possible wire diameters:	3/16" - 5/8" (5,5 - 16 mm)
Pitch:	3:1
Punching:	square holes 4 x 4 mm
Time required for diameter change:	only a few seconds
Number of punching pins:	42
Punching pins individually deselectable:	yes
Adjustable margin:	yes
Number of loops / loops on A4:	34
Machine: Length x Width x Height:	43 x 56 x 18 cm
Packing: Length x Width x Height:	box / 63 x 60 x 34 cm
Weight/ net, gross:	28 kg / 32 kg
Power supply:	230V / 50Hz / 90 W
International voltages:	all local voltages available on demand
