

## RW

### RW Wire Binding Machine

**The basic model for manual punching and wire binding machine of all formats up to A4 (12") U.S. models = 11". Punching and binding are done with a minimum of effort. Punches up to 25 sheets 20# bond(2.5 mm / 0.1") and binds up to 120 sheets**

**Features: book thickness gauge, wire size gauge, wire holder, easy-adjust closer, and heavy-gauge metal construction for outstanding durability. A gear driven punch with a long punching handle for maximum punching power with minimum effort.**

#### **TECHNICAL DATA**

- length, width, height: 14" x 22" x 7.5" [36, 55, 19 cm]
- weight: 28.6 lb. [13 kg]
- selectable punch pins: no
- punching thickness: .090" / 25 sheets (20# paper)
- adjustable margin: no
- binding thickness: up to 1/2" [12 mm] / 120 sheets (20# paper)
- diameter of the wire comb elements: up to 9/16" [14.3 mm]
- binding performance: up to 250 books per hour
- maximum width: up to maximum 11" US / 30 cm [A4]
- number punching pins: 34 (US models 32)
- pitch: 3:1
- number of loops: 11" = 32, DIN A4 = 34
- punching capacity: up to 5,000 sheets per hour
- motor: no
