

FREIGHT TRAIN AUTO CUTTER

The Automatic Cutter was designed as one part of the Freight Train's High Speed Lamination System. It can also be used with other manufacturers' equipment.

The Freight Train Auto Cutter was engineered for ease of service - all of the wear items are designed to be replaced in minutes. Nearly all of the other components of the machine are replaced in minutes, with exception of the feed tray and the bottom blade holder.

Concerning wear items, the original prototype machine cycled through over 600,000 cuts without any parts replaced – this machine is still in operation... The blades are self sharpening...

STANDARD FEATURES

Max width	13"
Max length	44"
Max designed thickness	.010 + .012 + .010
Min sheet length	1.2"
Min designed sheet length	3"
Margin increments	Metric, inch, fractional
Min Margin increments	.1mm / .001" / ~1/64"
Max Margin	25mm / 1.000" / 1"
Min margin	-25mm / -1.000" / -1"
Actual Speed	Approx 35 spm
Min laminator Speed	0 FPM / self regulating
Max transfer speed	200 FPM transfer
Memory	4-savable programs
Total weight	67#
Machine weight	37#
Stand weight	30#
Shipping weight	+++ packing
Shipping	UPS – split - 2 boxes
Dimensions	25w x 28l x 40h
Voltage	110 volts 50/60 Hz ½ amp
Watts	50 watts
Power Conservation Mode	8.5 watts
Warranty	1 Year*

*1 year warranty does not cover wear items; e.g. belts, blades and rollers which is 90 days
