

POCKET ROCKET **12" HIGH PERFORMANCE** **HEATED ROLLER LAMINATOR**

MADE IN USA

This 12" wide machine is possibly the fastest 110 volt 12" laminator in existence. While producing a superb finish and edge seal, it is capable of speeds up to 17 feet per minute and can laminate 3 mil. film in excess of 10 fpm. It can use films from 1 to 10 mils thick but runs best using the 3 & 5 mil thicknesses. You can also mount materials, such as foam board or HAM (Heat Activated Mounting) board up to 1/4" thick in one pass when you are laminating.

With set up time of a couple of minutes and a thru-put capability in excess of 1,000 fph, extremely profitable productivity can be expected. The Pocket Rocket is simply a 12" wide high performance commercial laminating machine. This machine fills the gap between "toys" and expensive commercial laminators, while sacrificing nothing in quality and performance. This is truly a professional machine in every aspect.

Simply turn it on when you about ready to laminate, with a warm up time that is about four minutes, you will be ready to start laminating quickly. Keep in mind that the vast majority of all printing, coping, and duplicating machinery does not process output that exceeds 12" in one dimension and that the vast majority of laminating films sold are 12" or less in width as well. Actually, the only thing little about the Pocket Rocket is its price.

12" Wide Laminator

3-1/2 Minute Warm Up

Laminates 1 - 10.0 Mil. / One Side or Two Sided

Lightening Quick, Sustainable Thermal Response

Variable Speed Control, Reversible

Laminates/Mounts To 1/4" Thick

Max Mechanical Speed: 24 fpm

1.7 PET 22- 24 fpm @ 295 degrees F

3.0 PET 15-18 fpm @ 250 degrees F

12"diameter - Film Roll Capacity

Digital Temperature Read Out

Heated Roll Watts: 850 each, 1,700 combined

Electrical Requirements: 120 Volt 60 Hz 16 Amps / 1,900 watts

Cooling Fans, (one set standard,)

Ultra Duty Welded Steel Stand Standard Included

Dimensions on stand: 23" W x 20" D x 40" H

Exclusive Micro Adjustable Slitter Assembly

The Industry's Most Affordable Professional Grade Laminating Machinery

Shipping info:

Box 1: Laminator

Size - 28" L X 22" W X 20" H

Weight 65 lbs.

Box 2: Stand and mandrels

Size - 30" L X 18" W X 8" H

Weight 40 lbs.
