

# The Pocket Rocket Gets the Job Done

*Fast 12" roll laminating with a professional finish!*

The PL1200 **"The Pocket Rocket"** is possibly the fastest 110v 12" laminator in existence. This 12" wide laminator produces superb finish and edge seal and is capable of speeds in 25 fpm range and will laminate 3 mil. material in excess of 15 fpm. It can use films from 1.2 to 10 mils thick and will laminate materials, such as foam board to 1/4" thick.

Many of these machines are currently in use as single side laminators, utilizing nylon based films for book covers a favored application for the rapidly expanding short-run publishing industry.

Another common application is using the PL-1200 as a short run fill in machine for trade laminators. Many trade shops have several PL 1200s loaded with different films ready to fill the needs of their customer wanting quantities as low as 1 to a 100. Set-up for a trade laminator can take longer than actual run time for short runs while tying up costly high volume equipment.

The size of most reproduced materials, printed, copied, or duplicated, does not exceed 12 inches in one dimension making **"The Pocket Rocket"** right for your shop. Warm up time is about 4 minutes on this little guy. Simply turn the **"Pocket Rocket"** on when you need it. And when you're ready, it's ready.

---

## The Pocket Rocket - PL1200 Specifications

Laminating width .....	12"	Stand .....	Optional w/3" mandrels
Speed .....	Max mechanical speed: 24 fpm 1.5 CL 30 fpm @ 300° F 3.0CL 15-18 fpm @ 250° F	Gapable rollers.....	Yes - Front heat and rear pull rollers
Polypropylene capable .....	YES	Solid state temp control....	Yes - With digital readout
Max film thickness .....	10.0 Mil	Motor speed control.....	Solid state/variable
Max material thickness .....	.275	Slitters .....	Optional
Cooling fans.....	2 Fans	Heated roll watts .....	850 each 1,700 combined
Warm up time .....	Approximately 5 minutes	Electrical Requirements....	120 Volt 60 Hz 16 Amps/19,00 Watts
Max roll diameter 1.5.....	w/o stand - 1000' w/optional stand - 3000'	Dimensions.....	23" W x 20" D x 16" H-w/o stand 40" H w/ stand
		Weight.....	Net 55 lbs, Shipping 82 lbs
		Shipping Dimensions.....	27" H x 21" D x 19" H
