THE DUCK COMMANDER

Gentlemen hunters, step aside and make way for the new generation – the duck-hunting obsessed psychos led by none-other than Phil Robertson, aka “The Duck Commander.” With this hard-hunting army of “Duckmen” surrounded by legions of Carry-Lite’s ultra-realistic Duck Commander Decoys, you can rest assured waterfowling will never be the same.

Designed by Mr. Robertson, every element of our Duck Commander series blows other decoys out of the water. Available in four popular species, all Duck Commander Decoys feature molded-in 3D feather details and natural-looking, extremely durable paint schemes.

Let’s get one thing perfectly clear – these aren’t your dad’s decoys.

Born and raised in the heart of Louisiana duck hunting country, Phil Robertson has been the alpha duck hunter of the Louisiana cypress swamps for four decades. His “Duck Commander” duck calls and reputation has spread vigorously throughout the waterfowling world.

The king and queen of North American duck marshes, mallards virtually guarantee success when they dominate any puddle duck spread. The Duck Commander mallard drakes feature vividly painted plumage with durable, iridescent heads. The hens feature ultra-realistic, molded-in plumage with feather-perfect mottled brown paint scheme.

- Multiple poses: semi-alert, preening and quacking

GADWALL
Q7133 (12-PACK) Q7133-6 (6-PACK)

The gadwall is the third most harvested duck in the Mississippi Flyway, yet it's often overlooked by today's waterfowlers. The Duck Commander gadwalls are strikingly lifelike and will add an important element of realism to any decoy spread. Mix them in with your mallards to attract more gadwalls and other ducks all through the season.

- Details such as feathers are molded into the plastic for ridges and grooves that offer realistic shadowing
- Made with top quality plastic
- Plastic becomes one with paint, resists fading and won't crack when frozen
- Duck Commander Gadwall 12-pack includes:
8 Quacking Drakes and 4 Semi-Alert Hens
- The Duck Commander Gadwall 6-pack includes: 4
Quacking Drakes and 2 Semi-Alert Hens

BLUE WINGED TEAL

Q7127 (12-PACK) Q7127-6 (6-PACK)

This small, swift, early arrival will twist and turn as it buzzes your blind before dropping into a quiet corner of the pond - all before you can even begin to collect your wits. But, when you really get into a bunch of them, they provide some of the fastest, most challenging shooting in the marsh. Which is why every spread deserves a cluster or two of blue wings off to the side. The Duck Commander's teal are so realistic you may not be able to tell the fakes from the real one that just dropped in.
