# Our Only Real Competition Is Mother Nature.™

CARRY-LITE began manufacturing decoys in 1924, making the company the oldest decoy manufacturer in the world. You don't stay in business this long without making products in which people believe. With a history of commitment to realism, CARRY-LITE customers know they're getting the most durable, natural looking decoys in the business. The diversity within the CARRY-LITE decoy line encompasses the largest species selection offered by any manufacturer in the world. If you hunt it, there's a good chance CARRY-LITE makes a decoy for it.

CARRY-LITE's patented Aqua Keele® design is one reason for the company's longevity. Once the keel fills with water, the water becomes trapped and acts as a ballast that stabilizes the decoy in rough water. The water trapped inside automatically sets the decoy upright if choppy waves tip it on its side. Hey, real ducks don't roll around in rough water, and neither will CARRY-LITE decoys.

CARRY-LITE has proven its leadership time and time again, such as in 1994, when the company introduced the Easy Fold Decoy® Turkey made of material much more durable than the foam used by other manufacturers at the time. CARRY-LITE's material also allowed for a more realistic-looking decoy with more lifelike detail than others on the market. Other firsts CARRY-LITE brought to the industry include the first molded plastic decoys, first full-body goose with legs, first one-piece goose shell decoy and the first to use the highly visible white plastic cheek patches on Canada goose decoys.

CARRY-LITE manufactures the most-detailed and realistic-looking decoys on the market today. They have achieved the acclaim of hunters around the world because they are hand-painted and designed by waterfowl hunters and wildlife artists. Because these designers are expert hunters, they know the importance of durability. That's why the materials used in crafting CARRY-LITE's decoys are tested under the cruelest extremes of conditions. These decoys can take the punishment you and Mother Nature can dish out and never crack or shatter in the cold.

## Pretty Boy® & Pretty Girl®

The CARRY-LITE Pretty Boy is the most realistic strutting tom decoy on the market! Combine it with the Pretty Girl submissive hen decoy and you've got a combo that enrages dominant gobblers. The Pretty Boy gobbler decoy uses an artificial fan (included) or you can dry a real fan and use it for added realism (instructions for creating your own decoy fan are included). The CARRY-LITE Pretty Boy & Pretty Girl decoys were tested Spring 2005 by Harold Knight and David Hale, who said they are the best decoy combo they've ever used in the turkey woods. Gobblers come running, ready for a fight. PATENT PENDING

Packed 2 decoys per box  
(1 Tom / 1 Hen)  
with DVD, Stake, Mesh Bag,  
Artificial Fan, and protective board

5878 - Pretty Boy & Pretty Girl

## Easy Fold Decoy® Turkey

These turkey hen and jake decoys also are more tough and durable and retain their shape better than any other collapsible turkey decoy on the market. Turkey hunters easily can fold these decoys for transport and rest assured that the decoy will pop right back into shape when they arrive at their hunting area.

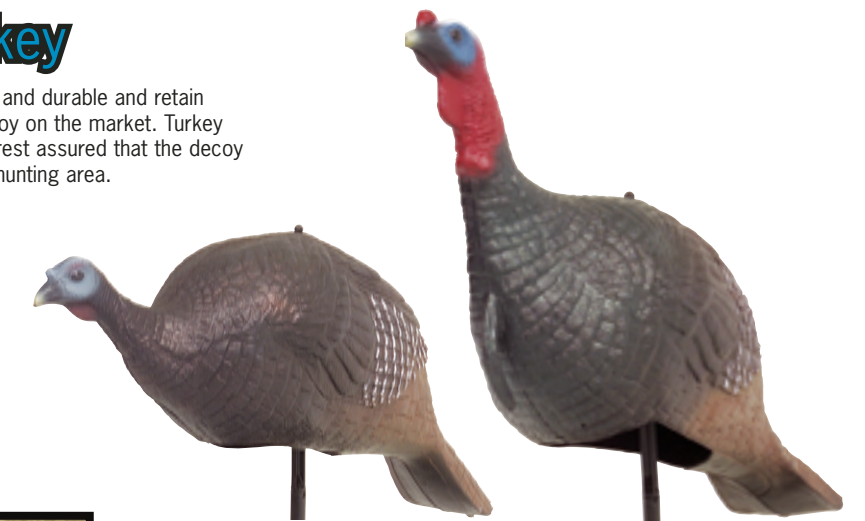

5874FL - Jake, Feeding Hen, Alert Hen

5875FF - Feeding Hen

5875AA - Alert Hen

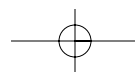

5876JJ - Jake

5879PP - Jake, Feeding Hen

Available in Alert Hen, Feeding Hen, Jake, Pair (Jake and Feeding Hen), and Flock (Jake, Feeding Hen, and Alert Hen) these rugged decoys come with CARRY-LITE's new two-piece bungee-corded stake that folds up for easy transport and makes placing the decoys a snap. For the most realistic decoys on the market, think CARRY-LITE.

shrink wrap  
4 packs per box

**Heron Decoy** Standard Size

**Mother Nature® 7000 Series**

The Mother Nature Series decoys' realistic paint schemes were developed by reproducing the colors of real wild birds, and the scheme is complimented by incredible feather detail and a big tear-drop shape. The gorgeous drake mallard comes with alternative heads that snap on and off. One of the heads is "active," and features a longer neck, and the other is "resting" with a short, squat neck. The hen has a resting head. The traditional Carry-Lite weighted keel allows the decoys to float level in the water no matter the weather, and two line stays ensures precise depth control.

All models packed 6 decoys per carton  
(4 drakes / 2 hens)

7020 Mallards

**DUCK**

8022 - Bluebill 19 1/2"

8024 - Blackduck 17 1/2"

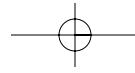

8020 - Mallard 19"

**Aqua Keel® 8000 Series** Magnum Size

For hunters in areas that sky-busters favor, CARRY-LITE's Magnum Series is what they need. The 20 percent larger body makes this series visible to high-flying ducks, even in a dense marsh-fog. The Aqua Keel feature, as always, gives stability in even the roughest of waters, while the extremely lifelike detail in decorating gives it the turning ability that only CARRY-LITE can deliver. Ever practical, these decoys also feature an easy-to-wrap anchor line storage system.

All models packed 6 decoys per carton  
(4 drakes / 2 hens)

## Deer Decoy Life Size

This life-sized and lifelike decoy is a must for any serious bow hunter. Movable ears and tail can be set to "alert," "relaxed" or "aggressive" positions for a variety of hunting situations. For safety and traveling ease, the decoy's head, ears, antlers, tail and legs can be disassembled and stored in its carrying bag. Comes complete with metal anchoring stakes and antlers for conversion to buck decoy.

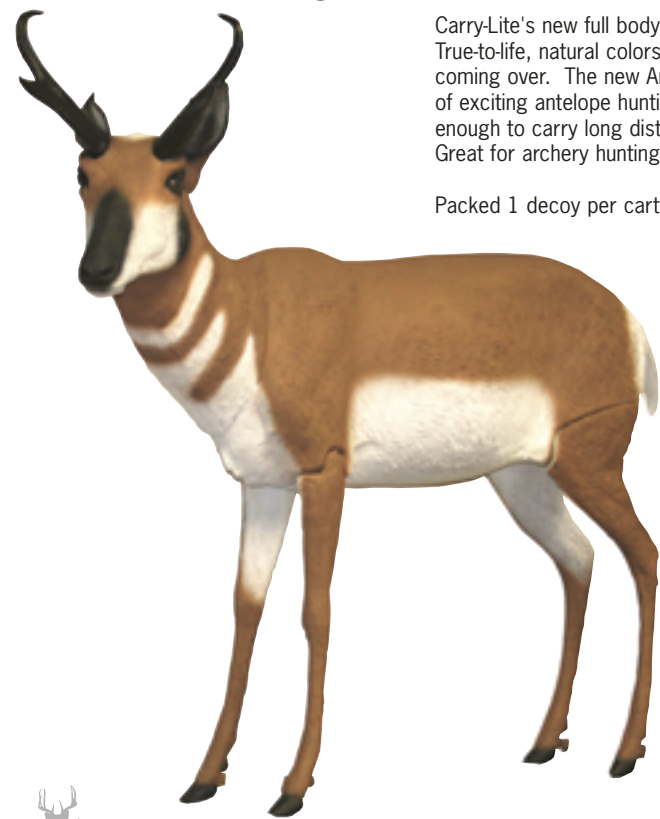

Tips for using a CARRY-LITE Deer Decoy safely: Decoys are best used in an "archery only" area or during archery seasons. The decoy is most effective if placed in a secluded area such as an open field where it can be easily seen by all of the deer that may inhabit the area. Because deer are very sensitive to foreign odors, the deer decoy should be handled with gloves. To neutralize the decoy from all foreign scents, use a scent neutralizer like CodeBlue® Stealth Dust™ to cleanse the entire decoy of all foreign odors. Then, to add extra measure of realism, a deer urine product such as Knight & Hale or Code Blue urine attractants should be applied near the decoy. The CARRY-LITE Deer Decoy should always be transported disassembled and packed in the large carry-bag included.

Packed 1 decoy per carton

D-2000

## Antelope Decoy Life Size

Carry-Lite's new full body Antelope Decoy is the most realistic speed-goat on the market. True-to-life, natural colors, a full body and a big, realistic head will fool any antelope buck into coming over. The new Antelope Decoy is easy to put together and durable enough for years of exciting antelope hunting. Even though it's a full body, 3-dimensional decoy, its lightweight enough to carry long distances. Comes with a convenient carry bag and hold-down stakes. Great for archery hunting!

Packed 1 decoy per carton

## Weighted Keel 5000 Series Standard Size

A 5000 series CARRY-LITE Decoy sets the standard that all other decoys strive to attain. Every feather is specifically painted; every bill is intricately detailed. Wrapping anchor cords around these replicas of Mother Nature is a snap with our no-nonsense storage system. And for practicality, our 5000 series will float naturally despite heavy winds. These decoys are intended for the serious duck hunter who demands a life-like set.

All models packed 6 decoys per carton (4 drakes / 2 hens)

HUNTING DECAYS

**Promotional 1-Piece Shell** Standard Size

This Canada goose decoy will give hunters a set of super-natural geese that will fool a flock of even the most wary Canadas without breaking the hunter's budget. Size matters when it comes to attracting these high flyers, and price matters when a hunter is trying to fill his field with a large number of decoys. This promotional series makes that possible. They come equipped with easy-set spikes so hunters can set their flock quickly and be hunting in record time.

Packed 12 decoys per carton  
(8 feeding / 4 sentry)

577 - Canada Goose

577/2 - Snow Goose

**Weighted Keel 5000 Series (cont.)** Standard Size

5034 Ringneck 13"

12-13 Shoveler 15"

**Aqua Keel® 400 Series** Standard Size

Our competitors might call it their top-of-the-line; we just call it standard CARRY-LITE quality. These price-efficient models set the pace in decoys with our patented Aqua Keel® System for stable spreads, with the looks of nature that only can be accomplished by skilled craftsmanship. Truly, these mimics of nature will fool any duck that spies them, at 40 feet or 100 yards.

All models packed 6 decoys per carton  
(4 drakes / 2 hens)

420 - Mallard 16"

421 - Pintail 19 1/2"

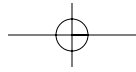

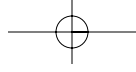

422 - Bluebill 14 1/2"

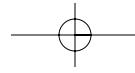

426 - Greenwing Teal 11"

428 - Wood Duck 12"

## 2-Piece Shell 25" Standard Size

This two-piece shell decoy comes with a metal "T" stake for stability. Realistic cheek patches on the Canada goose decoy are made of molded white plastic for extreme durability and unprecedented realism.

Packed 12 decoys per carton  
(8 feeding / 2 sentry / 2 resting)

5570 - Canada Goose

## 2-Piece Shell 32" Magnum Size

CARRY-LITE's best-selling two-piece shell has the size to attract birds from afar and the looks to bring them in, all at a reasonable price.

Packed 6 decoys per carton  
(4 feeding / 1 sentry / 1 sleeping)

5560 - Canada Goose

## 2-Piece Shell 42" Super Magnum Size

The largest of Carry-Lite's arsenal of decoys, our Super Magnums are visible to flying honkers at great distances. Packable in two pieces, the Canada decoy has white molded plastic cheek patches like its younger brothers in the 32" Magnum series.

Packed 6 decoys per carton  
(4 feeding / 1 sentry / 1 sleeping)

5542 - Canada Goose

5542/2 - Snow Goose (not pictured)

## Feeding Duck Standard and Magnum Size

Dipping ducks signal that food is available to incoming birds. What curious flock of fowl wouldn't want to drop in for a quick meal? The Feeding Duck is a perfect confidence-building decoy for a flock of curious waterfowl. CARRY-LITE Feeding Mallard decoys are available in 9" Standard and the 12" Magnum.

Packed one pair of decoys per poly shrink wrap  
6 packs per box

5040P - Mallard 9"

5040M - Mallard 12"

5041P - Pintail 11"

## Flying Mallard Standard Size

Designed to add variety and movement to a hunter's decoy arsenal are the Flying Mallard decoys. Sometimes, decoy sets need an extra touch of realism to get pressured ducks to land. The Flying Mallard decoys are complete with springs that fit into conduit (hunter provided) for added lifelike movement.

Packed 2 decoys per carton (1 drake / 1 hen)

FD-20 - Mallard 23"

## Landing Duck Standard Size

To capture a duck's natural look in a non-moving position is difficult enough, but to attempt to create a decoy that imitates a duck landing, well, that's made possible through CARRY-LITE's craftsmanship. Lifelike? That's an understatement. Right down to the webbed feet, this decoy will pull in even the most distant and wariest waterfowl.

Packed 1 per carton (1 drake)

LD200 - Mallard

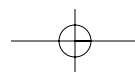

## Strap Anchor Accessory

DSA-5 5 Ounce Strap Anchor

1 dozen per pack

**GOOSE**

590 - Canada Goose

Packed 6 decoys per carton  
(4 feeding / 1 sentry / 1 resting)

The 23" vacuum-bottom goose decoy works equally as well on land or water. The concave bottom creates a vacuum seal, providing for a realistic, stable ride.

**Aqua-Vac**® Standard Size

**GOOSE**

5540P - Canada Goose

Dipping geese signal that food is available to incoming birds. What curious flock of fowl wouldn't want to drop in for a quick meal? A perfect confidence decoy for curious waterfowl.

Packed 2 Decoys per poly shrink wrap  
6 packs per box

**Dipper Goose** Standard Size

FG-9090 - Canada Goose

Hunters can add variety and movement to their decoy arsenal with the Flying Goose series. The Flying Goose is designed for just such a scenario. Packed with a spring that fits into conduit (hunter supplied).

Packed 1 decoy per carton

**Flying Goose** Standard Size with 48" wingspan

5555 - Canada Goose

Realism is the key to getting geese to drop into a spread, and the Spread BOSS is the most realistic three-dimensional decoy available. CARRY-LITE has set a new industry standard by including three heads with every Spread BOSS — Sentry, Feeding and Resting — to complete the most realistic spread available. The extra-large foot base will keep the Spread BOSS upright in strong winds without the use of ground stakes. The flat-bottomed feet allow hunters to position the Spread BOSS in icy conditions for that added bit of realism serious waterfowlers need.

Packed 1 decoy per carton  
(includes 3 heads: 1 feeding,  
1 resting, and 1 alert per carton)

**Spread BOSS**™ Standard Size

**Weighted Keel** Standard Deluxe

Our one-piece weighted keel decoys provide hunters with rock-solid stability, even in the roughest conditions. As real as it gets!

All models packed 6 decoys per carton (3 upright / 3 resting)

5590/2 - Snow Goose

5590 - Canada Goose
