MALLARD DECOY

MOTHER NATURE SERIES (Q7020)

The Mother Nature Series decoys' real-life paint schemes were developed by reproducing the colors of real wild birds, and the scheme is complimented by incredible feather detail and a big tear-drop shape. The gorgeous drake mallard comes with alternative heads that snap on and off. One of the heads is "active," and features a longer neck, and the other is "resting" with a short, squat neck. The hen has a resting head. The traditional Carry-Lite weighted keel allows the decoys to float level in the water no matter the weather, and two line stays ensures precise depth control. All models packed 6 decoys per carton (4 drakes / 2 hens).

CANADA GOOSE FULL BODY DECOY

(Q5525)(Q5523)(Q5520)

Realistic appearance is the key to tricking wary geese into setting their wings and dropping into your decoy spread. Once again we have set a new standard in realism with their new Canada Full Body Decoys. The precise dimensions and detail plus the flocked heads and necks make the Full Body Canada the most realistic three dimensional decoy available. Hunters will also appreciate the easy to use drop-on, no-tip bases that will keep the decoys upright in the strongest winds. Just drop the decoy on the easy to locate orange tip, the self centering slot will do the rest for the easiest set-up ever. An extra feature of the self-centering slot allows the decoys to move in the wind adding realism to the spread.
