Code Blue[®]

FROM **ONE**
DEER TO
ONE BOTTLE

Patent # 5,672,342

Each bottle of Code Blue contains secretion from one individual deer. This means two hunters in the same woods will always have two distinctly different scents from two different individual animals. If one of the hunters spooks a deer, he will not hinder the success of the other's hunt, because the deer will not associate the different scent with the scent that was present where it was spooked.

Code Blue is never a blend of urines of many animals or of oils or gland secretions as are other brands. To prove it, we submit our collection facility to the intense scrutiny of an outside independent certification organization. Then, we mark every bottle with the individual deer registration number. This insures the hunter that his bottle of attractant came from a completely different animal than the attractant of another hunter's bottle. This quality assured product is available for whitetail deer, elk and mule deer. Code Blue is so unique, it's Patented.

CodeBlue®

Doe Estrous OA1001

Doe estrous urine taken from a single animal for “true-to-life” effectiveness. Every 1-ounce bottle is certified as the “genuine article” by an independent organization and marked with the deer’s registration number. Perfect for use during the rut.

1 fl. oz.

Buck Urine OA1003

Buck urine taken from a single animal for “true-to-life” effectiveness. Every 1-ounce bottle is certified as the “genuine article” by an independent organization and marked with the deer’s registration number. Perfect for use all season long.

1 fl. oz.

Doe Urine OA1004

Doe urine taken from a single animal for “true-to-life” effectiveness. Every 1-ounce bottle is certified as the “genuine article” by an independent organization and marked with the deer’s registration number. Perfect for use all season long.

1 fl. oz.

Tarsal Gland OA1002

Contains actual tarsal gland. Every bottle is certified as the “genuine article” by an independent organization and marked with the deer’s registration number. Excellent for use during the rut as a ‘territorial infringement.’

2 fl. oz.

Estrous Gel

0A1026

Collected by the same patented process as our other Code Blue products, the gel form is the best all-weather scent because gel won't readily evaporate, freeze or wash away as quick as liquid. The special applicator built into the bottle's lid allows hunters to dispense scent without contaminating it with human odor.

2 fl. oz.

Buck Gel

0A1027

Code Blue buck urine is collected by the same patented process as our other Code Blue products and combined with a special gel to form the perfect multi-use scent product that is long lasting and weather resistant. The special applicator built into the bottle's lid allows hunters to dispense scent without contaminating it with human odor.

2 fl. oz.

Tarsal Gland Gel

0A1048

Code Blue Tarsal Gland Gel is stronger and remains potent longer — even in wet conditions — than any other tarsal product. The new Tarsal Gland Gel draws a strong response from bucks, and because it's a gel, works all day long so hunters can stay on stand longer. The special applicator built into the bottle's lid allows hunters to dispense scent without contaminating it with human odor. It's effective during all three phases of the rut, and resists freezing during the cold, late season.

2 fl. oz.

Unique swab applicator, included with every gel product, makes it easy to "paint" scent on branches, drags, etc.

Doe Urine Drag System

OA1036

Code Blue's whitetail doe urine, collected under a certified and numbered process, paired with a rugged, highly absorbent drag gives hunters the only "one of a kind" deer drag in the industry. Perfect for use all season long. One-ounce bottle.

Create A Buck Trailing A "Hot" Doe!

Double Drag System

OA1067

Try a double-drag-rag system during the midseason. Try a short drag rag saturated in Code Blue Estrous and a longer drag saturated in Code Blue Buck Urine. You're simulating a buck trailing a hot doe. When you arrive at your stand, hang your drags nearby and hang a Tarsal Gland nearby.

[Place Buck Urine Here]

Double Drag Combo

0A1074

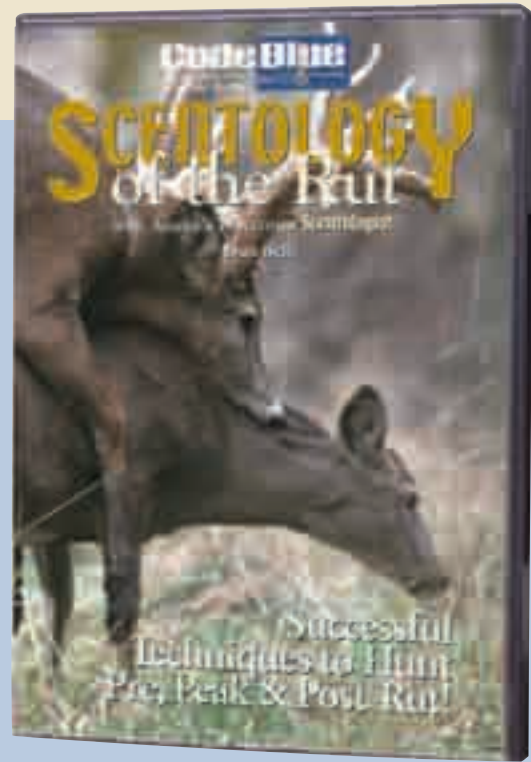

Create a potent scent trail of a buck trailing a “hot” doe. Code Blue offers convenient, ready to use bottles of certified genuine whitetail deer urine from a single doe and buck paired with our new double-drag-rag. Apply Code Blue Doe Estrous to the short drag rag and then apply Code Blue Buck Urine to the longer drag. Trail to your stand simulating a buck trailing a hot doe. Hang your drags nearby for the most effective scent dispenser available.

“Scentology™ of the Rut”

0A1072

DVD contains hunting footage during the Pre, Peak and Post Rut.

This instructional DVD contains everything you’ve always wanted to know about hunting the rut, and using scents and lures. We’ll also discuss Code Blue’s “territorial infringement” and “one deer to one bottle” concepts plus introduce you to “Standing Estrous.” Finally, there’s a DVD that not only contains actual hunting footage, but also explains the three phases of the rut and provides you with the “how to” in using scent to fool big bucks into making that fatal mistake.

ODOR ELIMINATORS

EliminX™

Odor Neutralizer

Patent #4,838,922

EliminX™ Odor Neutralizer

0A1076

Code Blue's EliminX is the latest innovation in personal scent management. This revolutionary formula simply eliminates human odor on contact. Our patented formula penetrates pores of clothing controlling any human scent that comes through clothing, for long lasting effectiveness. This formula separates and forms an invisible barrier around gas molecules eliminating odor. EliminX is three times stronger than human odor.

Your successful hunt begins with EliminX!

Non-Staining • Effective All Day • Odorless

Code Blue®

NEW for
2006

Stealth Dust®

Stealth Dust Odor Neutralizer

OA1077

Code Blue's Stealth Dust odor neutralizer is a patented powder that removes odors and naturally prevents more odors from forming. Stealth Dust eliminates odors by isolating the individual elements that produce offensive scent and signal danger to game animals. Stealth Dust goes on dry so hunters can remain scent-free in the woods even when it's too cold to spray liquid on their clothes. Just apply the dust to your clothing and areas around your deer stand by "shaking" dust on each object, and go undetected by the super-sensitive nose of that trophy buck.

Just "shake"
it on!

Advanced Formulation Odor Eliminator Spray

OA1078 Odor Eliminator Spray 12 fl. oz.

OA1079 Odor Eliminator Spray w/ Fresh Earth 12 fl. oz.

Neutralize human odors on contact with Code Blue Advanced Formulation Odor Eliminator Spray. Use on clothes, boots, hair, treestand — anything that might hold odors. Sweeten the deal with automatic application of cover scent with Advanced Formulation Odor Eliminator Spray with Fresh Earth scent.

Advanced Formulation Body Wash & Shampoo

OA1080 Body Wash & Shampoo 12 fl. oz.

OA1081 Body Wash & Shampoo w/ Fresh Earth 12 fl. oz.

Hunters know that a pre-trip shower with Advanced Formulation Body Wash & Shampoo is a must to prevent being winded by that big buck, but now hunters can apply cover scent while washing away their human odors. The addition of Fresh Earth scent simply ups your odds of remaining undetected in the woods.

Advanced Formulation Laundry Detergent

OA1082 Laundry Detergent 32 fl. oz.

OA1083 Laundry Detergent w/ Fresh Earth 32 fl. oz.

To beat the sensitive nose of a whitetail, your hunting clothes better have been washed in Advanced Formulation Laundry Detergent. Safe for carbon suits and featuring no U.V. Brighteners, it removes all odors from your hunting clothes. The addition of Fresh Earth scent gives you another advantage against that whitetail's sensitive nose.

NEVER SKIMP ON SCENT!™

The last thing you want to do is skimp on scents. What good does it do you if it's stored safely in your pack with the lid twisted down tight? When it comes to scents and urines, more is better, and with Knight & Hale's Deer Urines, you get nearly twice as much as with the competitors' products for almost half the price.

Doe Estrus

KH1400

The last thing you want to do when hunting is skimp on scent usage. That's why we introduced Attraction Doe Estrus. Our collection process allows us to offer big two-ounce bottles that cost much less than competitive national brands... as little as half the price!

2 fl. oz.

Buck Urine

KH1401

Attraction Buck Urine, a premium blend of buck urine. We collect only fresh urine from bucks to ensure a true blend that performs a step above the rest. Knight & Hale Attraction gives hunters more scent in big two-ounce bottles.

2 fl. oz.

Doe Urine

KH1402

Knight & Hale Scents brings to you Attraction Doe Urine. We have selected the freshest and highest quality doe urine on the market today. Knight & Hale Attraction Doe Urine give hunters more scent for less money.

2 fl. oz.

Deluxe Scent Drag

KH1429

Super absorbent scent drag that holds more scent. It's the simplest, most effective way to lay down a potent scent trail. Features a heavy-duty detachable clip. Can also be hung from a branch at a stand site.

Mule Deer Doe Estrus KH1430

This scent will pull in the big mule bucks! And compare the price! You get more for less thanks to our advanced collection process — and you never want to skimp on scent. Two full ounces.

2 fl. oz.

Mule Deer Buck Urine KH1431

The perfect scent for bagging that big mulie! And compare the price! You get more for less thanks to our advanced collection process — and you never want to skimp on scent. Two full ounces.

2 fl. oz.

Cow Elk Urine KH1432

This scent will drive bulls crazy! You get more for less thanks to our advanced collection process — and you never want to skimp on scent. Two full ounces.

2 fl. oz.

Bull Elk Urine KH1433

Provoke a territorial response from that trophy bull elk! And compare the price! You get more for less thanks to our advanced collection process — and you never want to skimp on scent. Two full ounces.

2 fl. oz.

WindScent™ Wind Indicator & Attractant

KH1477 WindScent™ Doe
KH1478 WindScent™ Cow Elk

WindScent™ is a super-fine scented powder that let's you determine wind direction. With the addition of Whitetail Doe Urine or Cow Elk Urine scent, WindScent also attracts while masking your odor. Fibers simply drift away showing you wind direction while the scent acts as an attractant and cover scent — all with one small spray!

COVER SCENTS

Liquid Cover Scents

- KH1406 Illusion™ Cedar Scent**
- KH1407 Illusion™ Acorn Scent**
- KH1408 Illusion™ Earth Scent**
- KH1409 Illusion™ Pine Scent**

4 fl. oz.

Hunters have been trying to cover their human scent for years. Now you can get a natural cover scent in a liquid spray. Available in Cedar, Acorn, Earth or Pine scent. Large 4-ounce bottle makes it easy to apply to your boots, clothes, pack, treestand and all gear.

MINERAL ATTRACTANTS

Create-a-Lick™ Mineral Mix

KH1437

A unique mix that's loaded with minerals — a nutritional formula that deer need. It's easy to use; mix with water or simply pour the mix onto the ground near your favorite spot to create a lick site that will drive deer crazy!

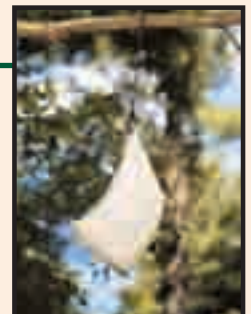

Create-a-Lick™ Mineral Drip Bags

KH1427 Apple

KH1428 Acorn

Deer love apples and acorns. Deer also crave minerals. Hang this flavored mineral drip bag from a branch near your stand and it will create a lick site where deer will dig, paw and lick. Draws deer close and keeps them around.
