

Instructions For - Electrical Assembly Cable-Track™ Management System and Cord Wrap

Your Endura mobile equipment table incorporates the Cable-Track™ Cord Management System. This exclusive feature manages electrical cords, keeping them safely out of the way. This system includes a 3-outlet, 15 foot surge suppressing electric assembly, UL and CSA listed, which is built into the safety handle. Please review these instructions carefully to maximize the added safety provided by Luxor's Cable-Track™ Cord Management System.

- PARTS LIST**
- 1 - Surge protected power cord
 - 1 - Cord wrap
 - 3 - Cord management ties
 - 4 - Sheet metal screws
 - 1 - Power cord retainer clip
 - 2 - "E"-clips
 - 3 - Cord management clips

ILLUSTRATION #A

IMPORTANT

- The electrical unit should be assembled first.

Cord wrap must be installed on leg before assembly of complete unit. See illustration #B.

5 Cords from equipment placed permanently on the top of the table may be retained, managed and routed to the handle plug. Trace a route which is most suitable for this and attach cord management clips along this path as shown here.

* Install correct size leg on top shaft then slide cord wrap down over leg into position.
