

Instructions For — Electrical Assembly and Cable-Track™ Management System

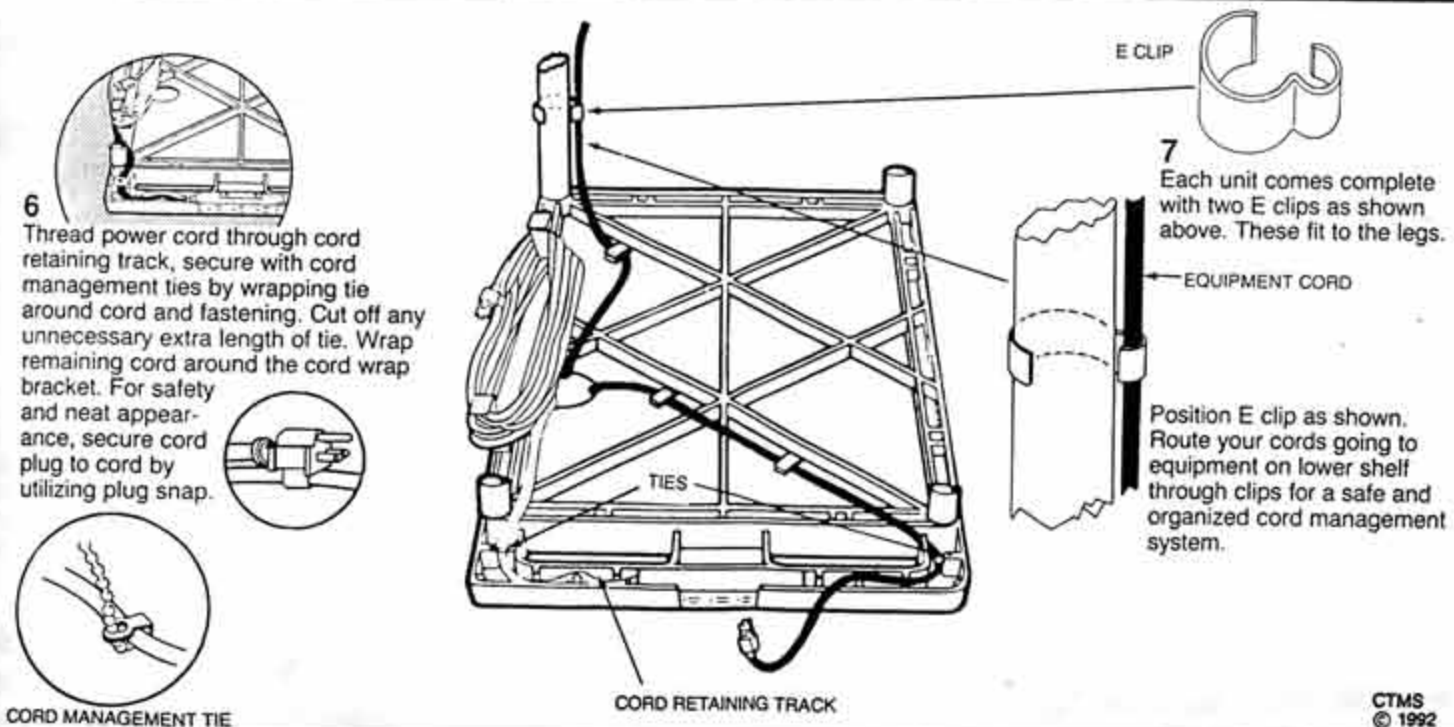

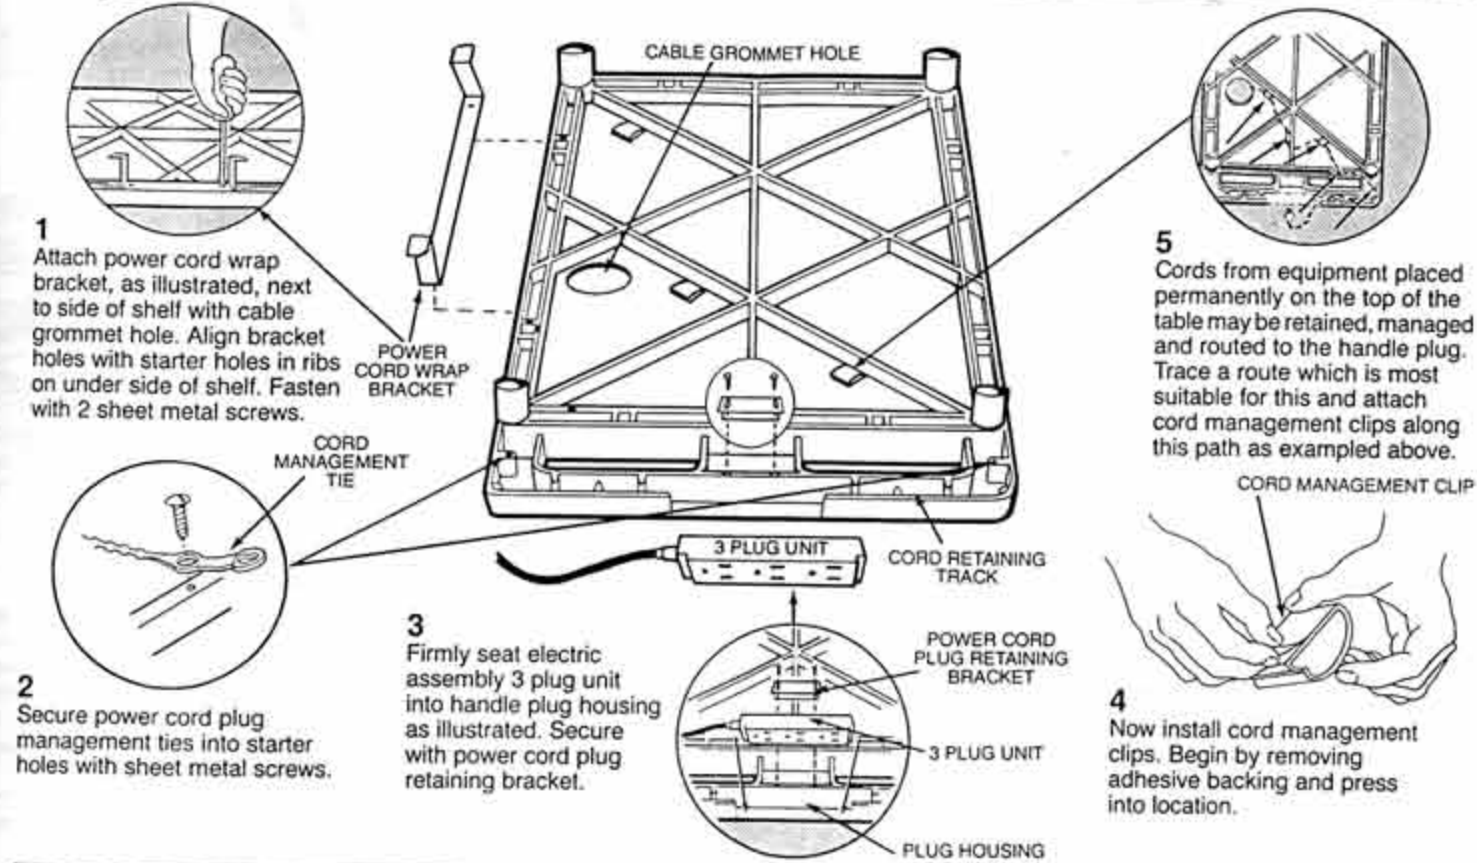

Your Endura mobile equipment table incorporates the Cable-Track™ cord management system. This exclusive feature manages electrical cords, keeping them safely out of the way. This system includes a 3-outlet,

15 foot surge suppressing electric assembly (U.L. & C.S.A. listed) which is built into the safety handle. Please review these instructions carefully to maximize the added safety provided by Luxor's Cable-Track™ cord management system.

VP-40B

PARTS LIST

Models VP-34 & VP-34B

- 1-Top shelf w/handle
- 1-Middle shelf w/8 leg posts
- 1-Bottom shelf w/caster sockets
- 2-Sets legs
- 4-Casters 2 w/brake (VP-34)
- 2-Casters w/brake (VP-34B)
- 2-Mono-pod brackets
- 1-Mono-pod camera mount
- 4-Sure grip pads
- 4-Small screws
- 1-Grommet assembly

Model VP-40B

- 1-Top shelf w/handle
- 1-Middle shelf w/8 leg posts
- 1-Bottom shelf w/caster sockets
- 1-Set long legs
- 1-Set short legs
- 2-Casters w/brake
- 2-Mono-pod brackets
- 1-Mono-pod camera mount
- 4-Sure grip pads
- 4-Small screws
- 1-Grommet assembly

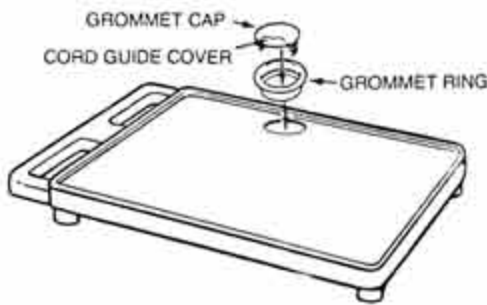

- Tools Needed:**
- 1-Slotted screwdriver
 - 1-Rubber mallet
 - 1-Steel hammer for models with big wheels.

IMPORTANT:

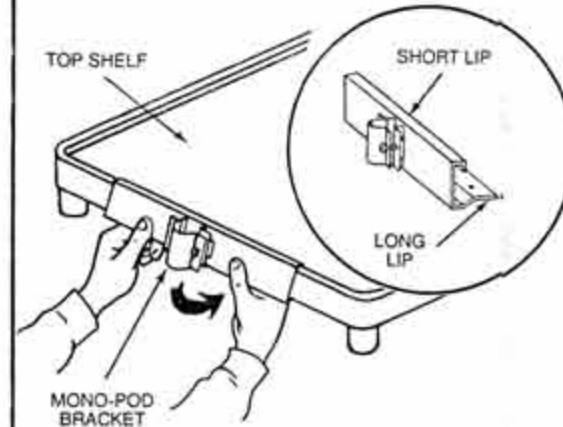

The electrical unit should be assembled first.

If your Endura Video Production Center has the Electrical Assembly and Cable-Track™ Cord Management System, see reverse side of this sheet for assembly instructions.

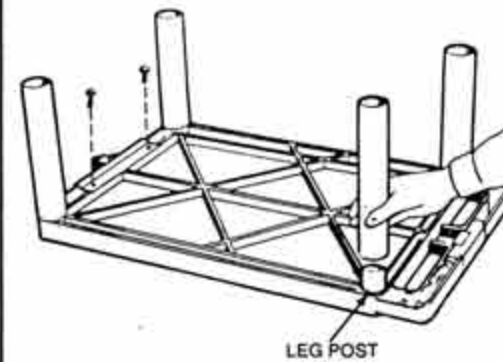

If your Endura Video Production Center does not have the Electrical Assembly and Cable-Track™ Cord Management System, start by cutting the electric plug housing in the handle of the top shelf as illustrated below.

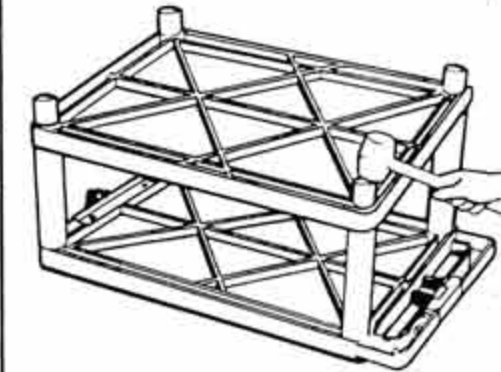

- 1** Install grommet ring by tapping into place with rubber mallet. Snap off cord guide cover from grommet cap so equipment plug may be run through grommet to plug unit, then insert grommet cap into grommet ring.

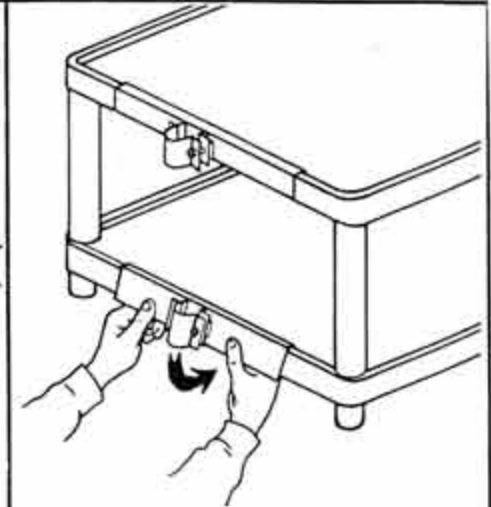

- 2** Mount the first mono-pod bracket on the top shelf opposite the handle as illustrated. Hook the short lip of the bracket over the top edge of the top shelf. Press down on the side of the bracket snapping the long lip onto the bottom edge of the shelf.

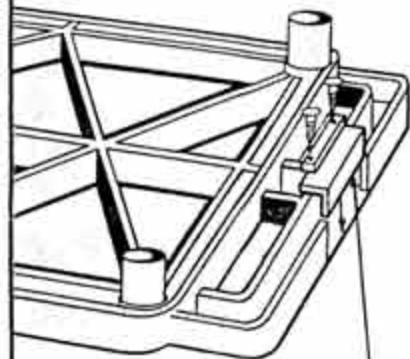

- 3** Lay top shelf (with handle), ribbed side up on a smooth surface. Slide the bracket along the shelf edge to align holes in the long lip with the holes in underside of shelf. Secure bracket with two sheet metal screws. Push all 4 short legs onto leg posts.

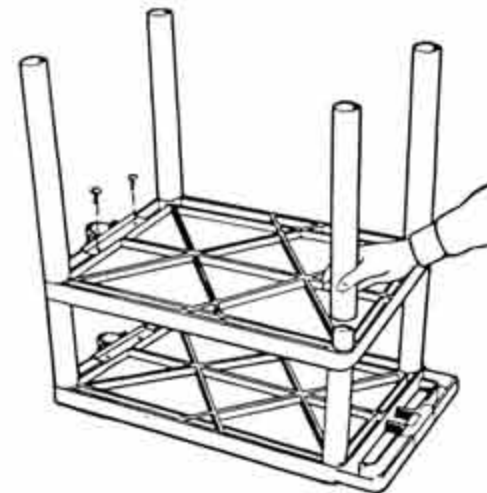

- 4** Position center shelf (with 8 leg posts) ribbed side up over the 4 legs and insert leg posts into short legs. Using a rubber mallet, firmly hammer center shelf into legs until all four legs are seated (flush) against the surfaces of both shelves.

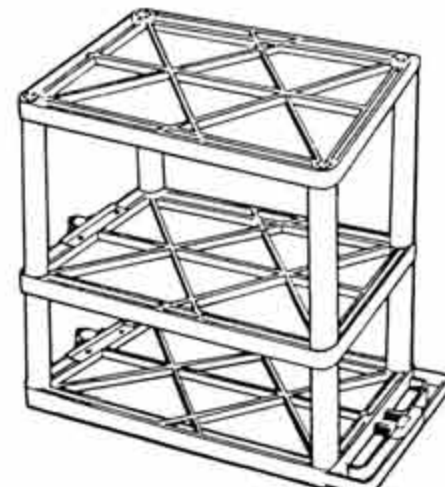

- 5** Mount second mono-pod bracket on center shelf in the same manner as in step #2.

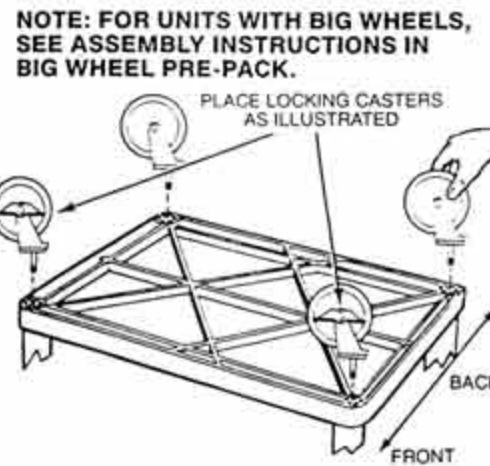

PLUG HOUSING COVER

- 6** Slide the second bracket along the center shelf edge to align holes in the long lip with the holes in underside of shelf. Secure bracket with two sheet metal screws. Push the remaining 4 legs into leg posts of center shelf.

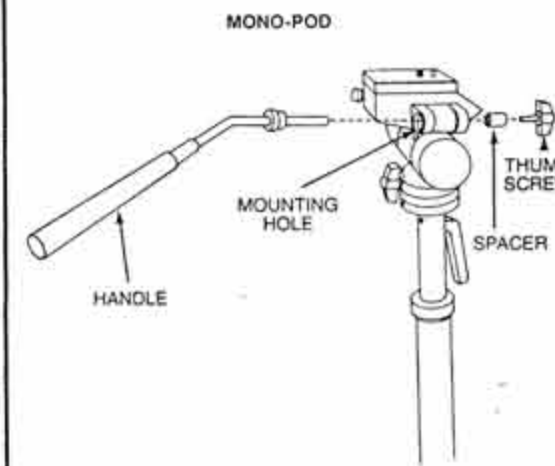

- 7** Position bottom shelf, ribbed side up, over the 4 long legs and insert leg posts into legs. Firmly hammer bottom shelf until seated onto all 4 legs.

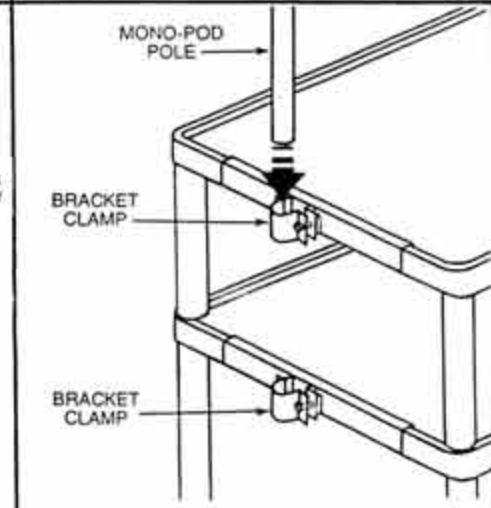

NOTE: FOR UNITS WITH BIG WHEELS, SEE ASSEMBLY INSTRUCTIONS IN BIG WHEEL PRE-PACK.

PLACE LOCKING CASTERS AS ILLUSTRATED

- 8** Push the four casters firmly into the holes in each corner of the bottom shelf. **Important:** casters must be fully seated. Tap firmly with rubber mallet to properly seat casters. Turn your Endura Video Production Center right side up.

- 9** Remove thumb screw and spacer from mono-pod handle. Slide handle through mounting hole in mono-pod head (opposite level). Put spacer back over end of handle then secure with thumb screw.

- 10** Loosen the screws from both mono-pod bracket clamps. Slide mono-pod down through both clamps. Tighten the screws on each bracket clamp to secure mono-pod in desired position. Your Endura Video Production Center is now ready for use.
