

Q: Will a Green Mountain 10-22 barrel fit my standard Ruger 10-22 stock?

A: Ruger makes the 10-22 with various barrel profiles. The most common of which is the tapered barrel, which looks like this:

Our 10-22 Sporter taper is a direct-fit replacement for the Ruger tapered barrel.

Our .920" diameter Bull barrel fits the Ruger 10-22 with a standard .920" barrel. The Bull Barrel looks like this:

Q: Will the Green Mountain Heavy taper 10-22 Sporter barrel fit my standard stock?

A: The Green Mountain Heavy taper is thicker than the Ruger standard tapered barrel, and would require relieving the stock for proper fit.
