Sportsmanlike Pursuit Statement

Knight Rifles is a firm advocate for responsible, lawful and challenging hunting, and the general rules and spirit of fair and sportsmanlike pursuit will apply to the \$1,000,000 Big Buck Contest. This includes but is not limited to the following principles:

- The intent of the contest is to test the skill of hunters using a Knight Revolution or other Knight muzzleloader in pursuit of free-ranging whitetail deer. Free-ranging refers to animals that are not raised or housed in an enclosure, or otherwise restricted in accessing the full resources of their natural environment.
- In no way should a hunter attempt to gain an unfair advantage over any animal. Hunting from any ground-based vehicle or airborne craft is prohibited. The harvest of any animal should be as quick and painless as possible.
- Take care at all times to protect and conserve the environment and surrounding natural resources, including all animals which roam the great domain.
- All local laws, regulations, seasonal restrictions and customs must be strictly obeyed.
- It is a privilege to hunt big game animals across North America, and in no way should the sincerity of the sport and its participants be compromised.
- The \$1,000,000 Big Buck Contest is void where prohibited by law.
