To use Full Plastic Jacket™ or not...

For the first time hunters now have a choice of ignition system from Knight. Hunters who want 100% rain-proof, snow-proof, and humidity-proof ignition there's the Knight Full Plastic Jacket™ ignition system. For those hunters who don't want this extra measure of weather protection, every Knight Rifle now comes with a traditional breech plug that holds a 209 primer—and a sincere wish for fair weather on your next hunt.

SOME DAYS, ALL YOU CAN PREDICT IS HOW YOUR KNIGHT WILL PERFORM.

There are few sure things in life and fewer in hunting. But there is Knight. Knight stands alone for extraordinary performance.

Knight is unquestionably the most accurate muzzleloader on the market. Knight muzzleloaders are built the way an experienced hunter would build them, with features like a quick-release bolt system, so you can remove the bolt in the field, without tools. And, Knight takes its mantle of extraordinary performance beyond the rifle range.

Knight acts on your behalf at many state legislatures, lobbying for better muzzleloading hunting opportunities. Knight also supports the organizations that sustain the game you hunt. When you purchase a Knight gun with the NWTf or RMEF symbol on the stock, we donate a portion of the proceeds to that organization. Finally, Knight is 100% made in the United States of America. What percentage of your other hunting equipment can make that claim?

There's bull and then there's bull

When you own a Knight, you have the most accurate muzzleloader in the world! And, that's no bull. All Knight muzzleloaders come with barrels manufactured by Green Mountain Barrel Company; the most accurate barrel money can buy. Next, Knight is known for having the best triggers in the industry. All triggers are set at the factory to have approximately a 3 to 4-1/2 lb. trigger pull with minimal creep. Having a trigger break crisp and consistent is imperative for shot accuracy. Combine all of this with the new Knight Polymer tip bullet from Barnes® and you have a deadly combination

AT 100 YARDS

for accuracy second to none. That's why Knight is the only muzzleloader with a guaranteed shot accuracy at 100 yards!

KNIGHT ROLLING BLOCK

A lot of game has fallen for the rolling block. Now it's your turn.

In 1866, the rolling block rifle was the choice of serious hunters. Now, Knight has captured that rugged design in its new KRB7 muzzleloader and enhanced it with modern day in-line technology.

- Available in .50 caliber
- Removable breech plug that accepts a 209 primer
- Green Mountain rifle barrel

KRB707C .50 Caliber
Stainless Steel/Composite

Harold Knight and his Bull Elk
This brute succumbed to the new Knight Rolling Block muzzleloader at 90 yards using a 285 grain SBT Knight bullet from Barnes® with 100 grains of powder.

THE NEW KID ON THE BLOCK IS A REAL BULLY.

Knight Rolling Block Specifications
Ignition: 209 primer
Caliber: .50
Twist Rate: 1:28"
Barrel: 27", blued, stainless steel or camo
Overall Length: 43"
Weight: 8 lbs.
Sights: Fully adjustable, metallic fiber-optic
Trigger: Removable with adjustment for pull
Stock: Composite, checkered, recoil pad, sling swivel studs
Length of Pull: 13-3/4"

Like all of our Muzzleloaders, the Knight Rolling Block features two safety mechanisms.

The Knight Rolling Block features a smooth, reliable hammer design that makes it quick and easy to load 209 primer.

KNIGHT LONG RANGE HUNTER

Mike Mattly and his Gemsbok
It was a beautiful sunny day in Namibia, Africa when Mike stalked to within 140 yards of taking a record book Kalahari Gemsbok. Mike was using his Knight Long Range Hunter with 150 grains of Triple 7 powder.

LRH727TF .52 Caliber
Stainless Steel/Forest Green Laminated Thumbhole

Long Range Hunter is guaranteed to have a 4-inch at 200 yards 3 shot group with a developed load using a bullet available from Knight Rifles.

200 YARD GUARANTEED SHOT ACCURACY

Each Knight Long Range Hunter comes with two breech plug options, one that utilizes the patented Full Plastic Jacket™ and one that holds a plain 209 primer.

The 200-Yard Muzzleloader.

Long Range Hunter is the ultimate expression of extraordinary performance. It's the rifle that helps you take and make 200-yard shots responsibly. And take home the trophy you're after. Long Range Hunter has no equal in range, power, accuracy, or styling.

- Available in .52 and .50 calibers (see pages 16 and 17 for more on .52 caliber models)
- Spiral custom-fluted* 27-inch Green Mountain rifle barrel
- Free-floating barrel improves accuracy

- Quick release bolt removes without tools
- Cast-off stock (in right or left hand) makes shouldering and shooting easier
- Beavertail forearm with vent slots dissipate heat
- Target trigger adjusts for creep, pull weight and overtravel
- Stock is available in Forest Green or Sandstone laminated wood

*Barrel fluting licensed from E.R. Shaw, Inc., under U.S. Patent Numbers 6,324,780 and/or D426,611

KNIGHT EXTREME

One gun. Any game.

Extreme is the choice of the one-gun hunter. It's versatile and performs dependably in any hunting situation you can imagine. And a few you can't. It shoots well at longer ranges and its quick release bolt makes field maintenance simple.

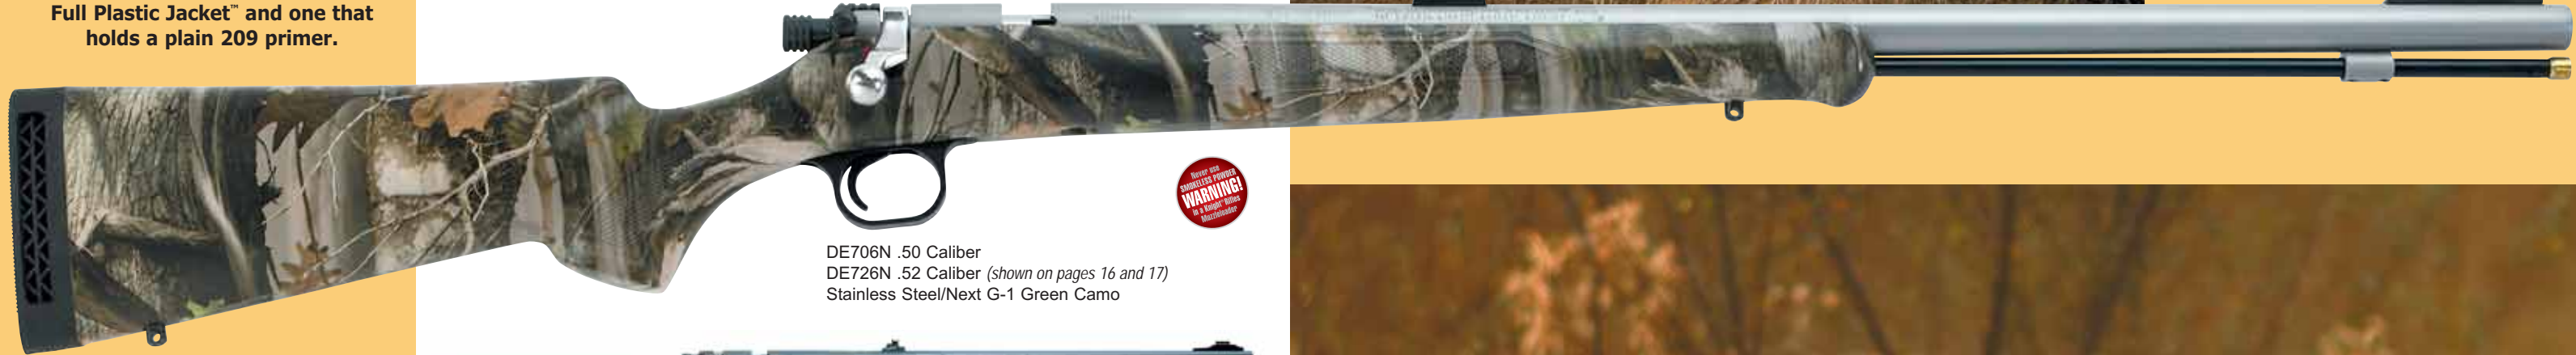

- Available in .52 or .50 caliber (see pages 16 and 17 for more on .52 caliber models)
- Wide variety of stock options
- Quality Green Mountain Rifle barrel in a variety of options
- Quick release bolt removes without tools

Joe Byers and his Red Stag
Without a doubt, New Zealand is one of the most beautiful places in the world, but on this particular hunt it was raining and sleeting every day. Bad weather didn't stop Joe from harvesting a beautiful Red Stag with his Knight Extreme at 150 yards!

Each Knight Extreme comes with two breech plug options, one that utilizes the patented Full Plastic Jacket™ and one that holds a plain 209 primer.

COUNT ON KNIGHT TO MAKE EVERY HUNT A GOLDEN OPPORTUNITY.

CONDITIONS ARE TOUGH.
LUCKILY, SO IS YOUR KNIGHT.

KV06U .50 Caliber
Mossy Oak® Break-Up™

Muzzleloading takes another leap forward.

The Vision is proof of Knight's dedication to the advancement of the sport. This groundbreaking design is simple, extremely practical in the field, and streamlines the look of the modern muzzleloader. Plus, it protects the receiver from weather.

- Hammerless feature minimizes blow-back and keeps the action cleaner
- Smooth break-action design
- Easy to remove fired primer-tip-off extractor for Full Plastic Jacket™ only
- Quick detachable trigger disassembles in seconds for easy cleaning
- Quality Green Mountain rifle barrel
- Cross bolt safety

Vision Specifications

Ignition: 209 Full Plastic Jacket™ and 209 bare primer
Caliber: .50
Twist Rate: 1:28"

Next G-1 Green Camo

KV706C .50 Caliber
Stainless Steel/Composite

Each Knight Vision comes with two breech plug options, one that utilizes the patented Full Plastic Jacket™ and one that holds a plain 209 primer.

Phil Phillips and his whitetail buck in velvet
 Phil was hunting the early "velvet" season in Nebraska when this trophy buck was taken with his Knight Vision at 150 yards! Phil used the new Knight PBT bullet from Barnes® with 150 grains of Triple 7 powder.

The Knight Vision features a smooth break-open design that makes it quick and easy to load 209 primer, and breech plug removal for cleaning.

The detachable trigger removes easily for cleaning.

Dick Scorzafava and his Black Bear
This monster bear was taken in northern Manitoba and measured 7-feet, 8-inches nose to tail, and weighed in at over 600 pounds! Dick used the Knight Revolution II with the new Knight Polymer Tip Bullet from Barnes® with 150 grains of Triple 7 powder.

KRII707AP .50 Caliber
All Purpose Realtree®

.50 caliber clout in a reliable lever-action design.

The Revolution II was introduced last year, but the design is still ahead of its time. Its weather-tight action is all up top—for easier primer loading and faster follow-up shots. Whether you're ambushing bean field whitetails or stalking Alaskan moose, this rifle puts them in the photo album.

- Innovative breech plug design minimizes blowback
- Lever action makes loading fast and closes weather-tight
- Three stock options
- Quick detachable action disassembles without tools in seconds
- Quality Green Mountain rifle barrel
- Drilled and tapped for scope mounting

Each Knight Revolution II comes with two breech plug options, one that utilizes the patented Full Plastic Jacket™ and one that holds a plain 209 primer.

The Revolution II features a quick detachable action for quick assembly.

Revolution II Specifications

Ignition: 209 Full Plastic Jacket™ and 209 bare primer
Caliber: .50
Twist Rate: 1:28"
Barrel: 27", blued, stainless or camo
Overall Length: 43-3/4"
Weight: 8 lbs. 4 oz.
Sights: Fully adjustable, metallic fiber-optic
Trigger: Non-adjustable
Stock: Laminate wood, black or camo composite, checkered, recoil pad, sling swivel studs
Length of Pull: 13-3/4"

KNIGHT BIGHORN

Blake McPherran and his Buck Early muzzleloader season started out cool and damp, but quickly turned hot for Blake. He harvested this gorgeous 150" buck with his Knight Bighorn at 60 yards using a 285 grain SBT bullet from Knight with 110 grains of Triple 7 powder.

YOU HUNT WITH KNIGHT BECAUSE YOU NEED TO BE JUST AS TOUGH AS HE IS.

Each Knight Bighorn comes with 3 breech plug options, so you can use 209 Full Plastic Jacket™, plain 209 primer, or a 3rd breech plug for musket cap or #11 percussion cap.

Knight Bighorn conquers mountains of bureaucracy.

Muzzleloading laws vary from state to state. But the Knight Bighorn is legal everywhere. It's capable of using a variety of ignition systems (included with purchase), and with simple modification it complies with any hunting regulation. Bighorn ignition systems can use a 209 primer, a #11 percussion cap, or a musket cap. It's the firearm of choice for hunters who love to travel.

- Available in .52 or .50 caliber
- Three rifle ignition systems included with purchase
- Proven, reliable cocking mechanism
- 26" Green Mountain rifle barrel is ideal length for any game
- Variety of stock options

Knight Bighorn legal in Washington, Oregon & Idaho

The Knight Bighorn has the ability to use several ignition systems. The open breech action and #11 cap or musket cap are required in Washington and Oregon. Idaho does not allow any 209 primer system, so the Bighorn is legal there as well.

KNIGHT .52 MODELS

The buck, the bear, and the bull stop here.

Fifty-four caliber muzzleloaders may be larger, but our Knight .52s are more powerful, especially at extended ranges. Knight .52s use a PowerStem Breech Plug which ignites loose powder columns further forward in the barrel. That increases velocity by 11 percent! At 200 yards, a bullet fired from a Knight .52 caliber has 2 inches less drop than a .50 caliber, and delivers twice the downrange energy.

- .52 caliber rifles are available in Knight Long Range Hunter, Extreme, and Bighorn
- .52 caliber rifles come with 3 breech plugs, a PowerStem—installed, a conventional breech plug for use with a Full Plastic Jacket and a conventional breech plug for use with a plain 209 primer (pelletized powder shooters must install conventional breech plugs)
- Testing proves that 150 grains of Triple 7 ffg loose powder yields higher velocities than 150 grains of pelletized powder
- Knight sabots, with thinner petals, release from the barrel faster, increasing accuracy
- Recoil increase is negligible despite increased velocity. Uniform acceleration yields smoother recoil

Knight Long Range Hunter
LRH727TF .52 Caliber
Stainless Steel/Forest Green Laminate Thumbhole

Knight Long Range Hunter
LRH727F .52 Caliber (LRH727F-L left hand available)
Stainless Steel/Forest Green Laminate

Knight Bighorn
BH726TC .52 Caliber
Stainless Steel/Composite Thumbhole

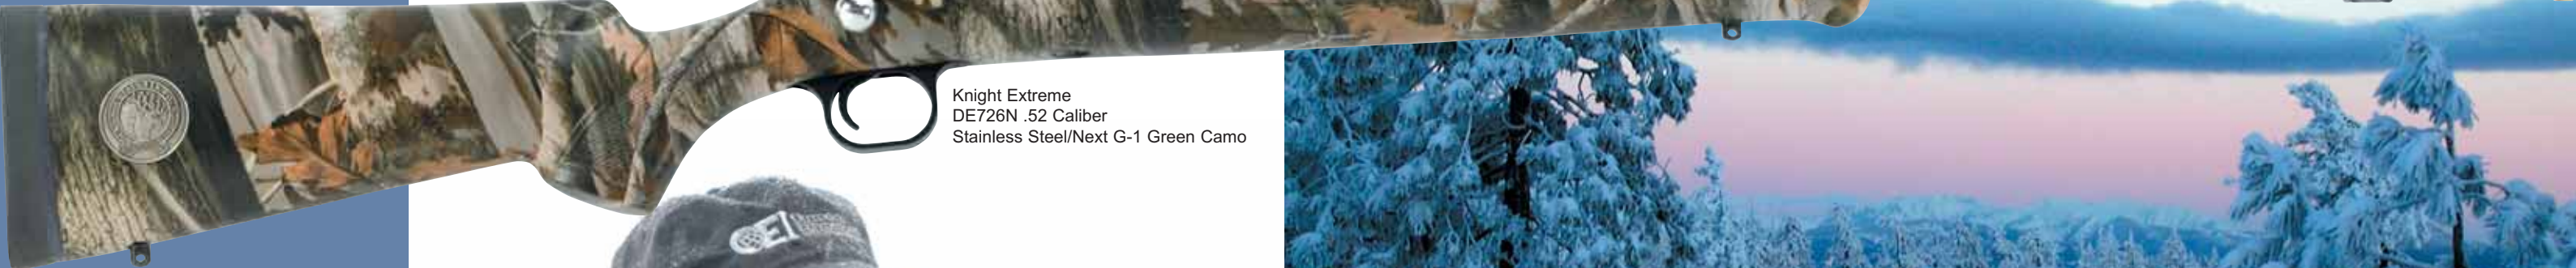

The secret of the .52's power lies in the PowerStem Breech Plug.

KNIGHT WOLVERINE 209 YOUTH VALUE PACK

**MUZZLELOADING.
CONTINUE THE TRADITION.**

The Knight Wolverine 209 Youth Value Pack comes complete with the following items that you will need to get started in muzzleloading:

- .50 caliber Wolverine 209 Youth Muzzleloader
- Cleaning Jag & Extension
- Combo Tool & Allen Wrench
- Cleaning Patches (50)
- Knight Oil
- Knight Full Plastic Jackets™ (20)
- 3 Fiber-Lite® Speed Shells
- Capper/Decapper
- Fiber-Lite® Powder Measure
- Breech Plug Grease
- Knight Bullets & Sabots (20)
- Muzzleloading Video

WM02YV .50 Caliber
Blued/Composite
(Sold in Value Pack only)

**Exceptional value today,
and every day you fire it.**

Wolverine 209 Specifications

- Ignition:** 209 Full Plastic Jacket™
- Caliber:** .50
- Twist Rate:** 1:28"
- Barrel:** 22", Blued
- Overall Length:** 41"
- Weight:** 7 lbs.
- Sights:** Fully adjustable, metallic fiber-optic
- Trigger:** Adjustable (creep, pull weight)
- Stock:** Composite, checkered, recoil pad, sling swivel studs
- Length of Pull:** 12-1/2"

The Wolverine 209 pays you back from the moment you purchase it. It comes value-packed with muzzleloading essentials—shooting and cleaning products, sabots, bullets, an instructional video, and more. It carries the same Full Plastic Jacket™ ignition technology as our higher-end rifles, so it's extremely reliable in the field no matter what the weather. The Wolverine 209 is also shorter from butt to trigger, so young shooters have an easier time embracing the sport.

Austin Peterson and his First Whitetail Buck
It was almost dark when Austin put the cross hairs on this magnificent buck, and dropped it dead in its tracks at 80 yards! Austin was shooting a Wolverine 209 using a 285 grain bullet with 100 grains of Triple 7 pellets.

**CALL HIM IN.
THEN CALL ON YOUR KNIGHT.**

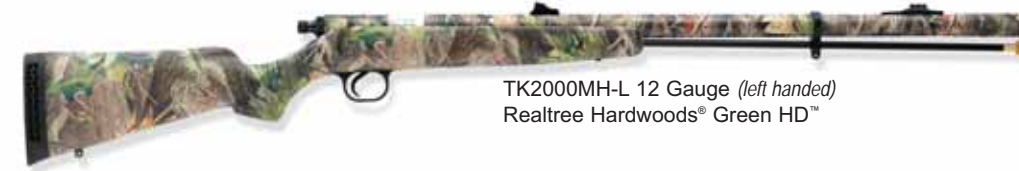

KNIGHT TK2000 SHOTGUN

Each Knight TK2000 Shotgun comes with two breech plug options, one that utilizes the patented Full Plastic Jacket™ and one that holds a plain 209 primer.

TK2000MH 12 Gauge

Stock: Checkered, recoil pad, sling swivel studs
Length of Pull: 14-1/2"

TK2000TUNWTF 12 Gauge
Mossy Oak® Break-Up™ Thumbhole

Built to take on the ultimate challenge in turkey hunting.

Could it get any better than bagging a big tom with a muzzleloader? The TK2000 can help you tell that story. In fact, it delivers one shot accuracy unrivaled by any other shotgun—including your other centerfire shotguns. TK2000's barrel has a patented jug-choke design that allows the shot to expand before directing it through the choke tube. It produces unequalled pattern concentration—85% shot density in a 30-inch circle at 40 yards!

- Weather-tight ignition and 209 bare primer options
- Industry-leading choke design
- Proven, reliable action
- A variety of camo patterns
- Two stock options

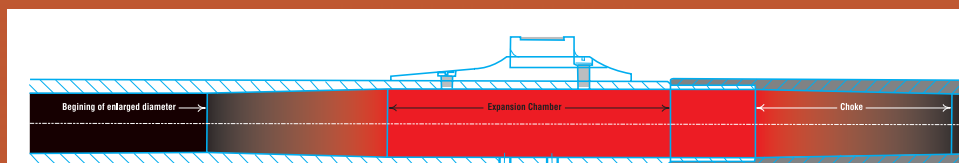

Test pattern results from the TK2000

Total Yardage	Number of shot in a 30" diameter	Percentage of shot in a 30" diameter
25 yards	330	97%
30 yards	328	96%
40 yards	289	85%

Richard Tharp and his Gould's
 It was a clear, but windy day on April 25 when Richard harvested this Gould's Turkey with his TK2000 shotgun down in Chihuahua, Mexico. Richard was using #4 shot with 110 grains of loose powder when he shot this record book Gould's at 30 yards.

Knight Rifles is a proud sponsor of the National Wild Turkey Federation. A portion of proceeds go to help preserve the future of turkey hunting.

Knight's patented jug-choke design allows the shot to expand, and then directs the shot into the choke tube for unequalled pattern concentration.

LOADING ACCESSORIES

Speed Shell Tube, 3 Pack, Fiber-Lite®

MFG #900048
.45/.50 pellet speed shell tube

Not divided. Will hold 3 pellets and a sabot bullet. Also used for .52 caliber with loose powder and bullet.

Speed Shell, 3 Pack, Fiber-Lite®

MFG #900050
Holds loose powder or 3 pellets

The complete load Speed Shell holds a powder charge in one end and a sabot/bullet projectile in the other. Will hold 3 Triple 7 pellets.

Bullet Starter Multi-Purpose, Brass

MFG #900070

Designed to protect the palm of your hand while serving as a ramrod assist handle, a bullet starter, and a cleaning rod extension. Thread size of 10-32 on both ends.

Bullet Starter, T-Handle, Fiber-Lite® with Brass Tip

MFG #900071
Durable Fiber-Lite designed to get the bullet down the muzzle.

Bullet Starter, Ball Handle, Fiber-Lite® with Brass Tip

MFG #900072
Durable Fiber-Lite material makes loading easier.

Brass Loading Tip, Polymer Tip Bullets

MFG #900068
Attaches to ramrods. Protects Polymer Tipped Bullets.

Powder Measure/Flask Brass

MFG #900100
Solid brass, eliminates the waste of excess powder in three steps; place

measure inside unique spout on flask, push button and shake, release button. Adjustable from 30 to 150 grains.

Powder Measure, Brass

MFG #900117
Solid brass one-piece measure adjustable from 30 to 150 grains for consistent powder measuring.

Powder Measure Fiber-Lite®

MFG #900111
Heavy-duty and durable Fiber-Lite material, adjustable from 10 to 150 grains.

Funnel Cap Top

MFG #900114 (Pyrodex)

Ramrods

Cleaning, 33.5" range rod:
MFG #900083 – fits .52 caliber
MFG #900076 – fits .45 caliber
MFG #900079 – fits .50 caliber
Standard aluminum ramrod:
MFG #900084 – 22"
MFG #900085 – 24"
MFG #900088 – 26"
Power rod, T-handle:
MFG #900742 – 22"
MFG #900744 – 24"
MFG #900746 – 26"

SHOOTING ACCESSORIES

Red Hot Nipple

MFG #900012 Musket cap 1/4-28
MFG #900013 #11 cap 1/4-28
MFG #900015 #11 cap 6.75mm
MFG #900017 #11 cap 6-1mm

Designed for percussion or musket caps. Double taper design ensures positive firing and prevents caps from sticking. Standard threads fit all muzzleloaders that require a nipple with 1/4-28, 6.75 mm, or 6-1.0mm threads. Knight Rifles use 1/4-28.

Breech Plugs

MFG #900019 Fits Original Disc, Hex head
MFG #900021 Fits W209, TK2000, USAK, Hex head (not shown)
MFG #900023 Fits .50 cal. LK, MK, USAK
MFG #900024 Fits DISC Extreme, Vision, LRH, MH, Elite, Hex head
MFG #900043 Fits Revolution

209 Conversion Non Full Plastic Jacket Breech Plugs

MFG #900044 Fits Extreme, LRH
MFG #900045 Fits Bighorn, W209, TK
MFG #900046 Fits Vision
MFG #900047 Fits Revolution II
Converts Knight Rifles to utilize a bare 209 primer.

PowerStem Breech Plug

MFG #900042
Fits .45, .50 and .52 caliber DISC rifles

PowerStem accuracy enhancement increases velocity, increases energy and reduces felt recoil with more efficient powder burn. *NOTE: Use loose powder only - do not use with pellets*

Capper, Musket, Brass

MFG #900028 Lanyard included

Capper, #11, Brass

MFG #900029 Lanyard included

Capper, #11, Brass

MFG #900030 Lanyard included
Holds 100 #11 percussion caps for use on scoped or unscoped rifles.

Capper, #11, Fiber-Lite®

MFG #900031 Lanyard included
Fiber-Lite Capper holds twelve #11 percussion caps.

Non Full Plastic Jacket Capper/Decapper, 209 Primer

MFG #900034

Full Plastic Jacket Capper/Decapper Tool

MFG #900036

209 Primer Extreme Conversion Kit

MFG #900603 Fits .50 cal., LK, USAK, BH, TK2000, BK, MK85 (or pre 1995 .54 cal. models)
Call tech support for MK85/BK92 Cappers
The kit will fit any Knight Rifle

allowing it to shoot 209 Primers. Includes: Breech Plug, Combo Tool, Hammer Assembly, Full Plastic Jacket Capper/Decapper and 20 Full Plastic Jackets™.

209 Primer Extreme Conversion Kit

MFG #900604 Fits .54 cal., LK

Includes: Breech Plug, Combo Tool, Hammer Assembly, Full Plastic Jacket Capper/Decapper and 20 Full Plastic Jackets™.

DISC Extreme Conversion Kit

MFG #900607 Fits Original DISC
Includes Breech Plug, Bolt Assembly, 20 Full Plastic Jackets™, and Bolt Set Screw.

Primer Loading Tool

MFG #900103
No hassle tool to press 209 primers into Full Plastic Jackets™.

Full Plastic Jacket™, 100 Pack

MFG #901104

Red Full Plastic Jackets™ allows you to shoot 209 shotgun primers in your MHS Extreme, Revolution, Vision, LRH, DISC Extreme, Wolverine 209, Bighorn, TK2000 or USAK (manufactured after 2003).

Original DISC™, 100 Pack

MFG #901107

Orange percussion DISCs allow you to shoot 209 shotgun primers in your Original DISC rifle.

SIGHTING ACCESSORIES

One Piece Metal Front Fiber Optic Replacements

MFG #900175 Green
Fits all Knight Rifles.

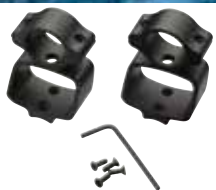

Williams Metal Sight Set Fiber Optic

MFG #900179

Green Front/Red Rear Sight

High visibility sight beads and blades are ideal for shooting in low light conditions. Light gathering elements improve low light sighting. Fits all Knight Rifles.

Scope Mounts See-Thru

MFG #900790 Blued

Fits all current Knight Rifles with rounded receivers.

Scope Base and Rings Combo

MFG #900777 Blued
Fits Knight Vision.

Redfield Ring & Base Sets

MFG #900730 Blued

Fits all current Knight rifles.

MFG #900731 Silver

Fits all current Knight rifles (with rounded receivers).

Weaver Style Ring & Base Sets

MFG #900775 Blued

Fits all current Knight rifles.

MFG #900776 Silver

Fits all current Knight rifles (with rounded receivers).

Scope Base One Piece

MFG #900732 Blued

Fits Knight Vision.

CLEANING ACCESSORIES

Cleaning Patches

MFG #900099 100 Pack

MFG #900101 300 Pack

Dry cleaning patches are perfect for pre-shooting preparation and regular cleaning and maintenance.

Patch Puller

MFG #900098

Remove lodged patches without disassembly. 10-32 threads.

Combo Tool

MFG #900131 9.5" fits LK, MK, USAK, BK

MFG #900134 9.5" Hex head, fits DISC, W209, BH, TBLT

Allows for easy removal of the nipple and breech plug for cleaning. 9.5" Combo Tool is ideal for scoped rifles.

Black Powder Soap, 8 oz.

MFG #900115

Cleaning Pack
