LONG A™

The Bomber 13A Long A presents a broad "X" wobble that prompts wild, erratic darting action when twitched and a wide, searching wobble when retrieved. Diving to no deeper than 2 feet, this short minnow twitchbait brings high-tech color patterns and proven classic looks, perfect for everything from largemouth bass to shallow walleyes to inshore speckled trout and redfish.

SUSPENDING PRO LONG A™

The Suspending Long A Pro is the ultimate Bomber jerkbait. This series was designed with painstaking detail to combine unmatched realism and the industry's finest components. A bait that's all about performance, the Suspending Pro Long A is weighted to suspend horizontally. Jerkbait fishermen are notorious for "tweaking" baits. Here's a bait that's tweaked right out of the package.

LONG A™

You won't catch many pros without a jerkbait rigged, no matter the season. That's because the minnow imitator is well known as one of the single most-versatile baits. And, the Long A is the best of the best when it comes to replicating a life-like swimming action. With a tight wiggle and castable design, the Long A is equally effective for largemouth, smallmouth, stripers, walleye and pike.

FAT FREE SHAD®

FAT FREE SHAD® DEEP SQUARE LIP

The Bomber Fat Free Shad Deep Square Lip combines the tried-and-true Fat Free Shad body shape with a special square-lip bill that deflects cover like a champ. Adding more snag-free ability is the bait's nose-down attitude in the water, which positions the hooks behind the big body and keeps them out of trouble. It's the perfect crankbait for fishing mid-depth cover or structure.

FAT FREE SHAD®

A Bassmaster Classic victory and over \$1 million dollars in prize money doesn't happen by accident. When introduced, this flat-sided deep-runner completely renovated the crankbait market. With an enticing tight action, the Fat Free Shad is responsive with an ease of retrieve never before seen in a bait of its size and running depth.

Add the latest advances in color and reflectivity, realistic 3D eyes and XCalibur Tx³ treble hooks and you have the premier deep-diving crankbait on the market.

DEEP FAT FREE SHAD®

The Bomber® BD8F and BD8SF reach depths never seen before in a Fat Free Shad. These baits dive to 19 feet on a long cast with 10- pound line. The difference between these baits is that the BD8F features a rattle system, and the BD8SF is a silent bait with no rattle. Both have that magical bass-catching action that made the Bomber® Fat Free Shad® series the most successful in history.

REAL CRAW®

The Real Craw Bomber Model A Real Craw® is more than a series of super-realistic color patterns; it's like an exoskeleton. Not only do the Real Craw Series Model A's feature the most detailed, realistic crawfish looks, but the texture produces a more realistic feel. Raised, blood-red crustacean eyes are positioned at the end of the lure for a truly realistic look.

VALUE SERIES

Three fantastic classic crankbaits are new again from Bomber, with top-quality components and new color patterns. The size 4 and 5 Square A dive to about 3 feet with an irresistible wobble. The square paddle lip with trimmed corners (cut at a 45-degree angle) allows this bait to run over fallen timber and through heavy cover. Wide wobble and Bomber tough! Also new from Bomber is the size 5 Shallow A, which wakes with the best of them and dives to about 1 foot. Designed for shallow water, the Shallow A wakes with a wide wobble fast or slow.

For those times when the fish want a tighter wiggle or more-subtle presentation, the Flat A is the tool for the job. Suspended fish can be particularly hard-headed and this near-neutral design gives you the flexibility to target fish at specific depths with specific retrieve speeds. Equally effective fished painstakingly slow or burned for a reaction bite.

HERKY JERKY™

The Herky Jerky pike, muskie and striper lure is a subsurface walk-the-dog lure with a surprise – when paused, the lure wobbles back-and-forth and emits a fish-attracting sound. At 6-inches in length, it's a big mouthful and manufactured to take the abuse of a giant muskie or 50-pound striper.

Three versions are available, the Herky Jerky, the 5-inch Herky Jerky Jr., and the Herky Jerky CTS (Close-To-Surface). The Herky Jerky Jr. has all of the fish-catching characteristics of its bigger brother, simply in a smaller package. The Herky Jerky and Herky Jerky Jr. are slow sinking lures that walk-the-dog when retrieved with repeated downward twitches of the rod tip. The Herky Jerky CTS rides just under the surface, walking the dog just like a wounded or panicked baitfish.
