MODEL	WEIGHT	SIZE	HOOK SIZE	DEPTH	COLORS
Xcs100	1/2oz. / 12.4g	2in. / 5.08cm	#4-belly / #4-tail In-line Tx3™	0-3 feet	Available in all colors shown
Xcs200	5/8oz. / 17.1g	2-3/4in. / 6.98cm	#2-belly / #2-tail In-line Tx3™	0-3 feet	Available in all colors shown
Xcs300	3/4oz. / 19.8g	3in. / 7.62cm	#2-belly / #2-tail In-line Tx3™	0-3 feet	19, 21, 24, 35, 43, 45, 51, 53, 54, 58, 59, 63, 64

The XCalibur Xcs series of silent (no rattle) shallow-running crankbaits has everything anglers need to pull spooky bass from skinny water. The Xcs series comes in three sizes that will cover a wide range of forage species. The Square Lip series wobbles and semi-rolls to show its flash, and the sophisticated color patterns with etched scale patterns seal the deal on shallow-feeding bass. Tx3 In-Line hooks ride up against the body to reduce snags, and the squared paddle shape helps the bait “bump and run” through cover to catch the big ones. Now with the new Real Gill color patterns, the Xcs Series takes another jump ahead of the curve. From realistic Pumpkinseed to unique Blue Racer, the Real Gill series Xcs separates itself from the competition.

## R E A L C R A W ®

In short, Real Craw is a super-realistic crawfish pattern on the best quality shallow-running crankbait. Plus, the price won't bust the wallet. Seven color variations adorn these square-lip crankbaits that feature raised, molded-in red crustacean eyes, top quality components and a tough, true-running attitude.

**THE PERFECT RATTLE BAIT.** The XCalibur Xr Rattle Bait series presents the perfect profile, loud, multiple rattles, incredible fish-catching color patterns and the high-tech design that anglers demand. In just a few short years the Xr has become the go-to bait for thousands of anglers when they reach for a lipless crankbait. The detailed design includes etched scale patterns, 3-D eyes, in-line hooks that cut down on snags and the most advanced paint jobs on the market. Whether you're burning it over vegetation, yo-yoing it off the bottom or doing the classic rip-and-drop in submerged vegetation, the XCalibur Xr series runs true and holds up to the abuse of big bass after big bass.

## REAL CRAW®

Real Craw is more than the most realistic and effective color pattern on the market – it's an exoskeleton that feels like a living thing in the water. Nothing looks and feels more like a fleeing crawfish than the XCalibur Xr50 in the new Real Craw series. A detailed, multi-step painting process produces a muted color pattern that gives a crawfish look to an already effective lure design. Raised blood-red crustacean eyes are positioned at the tail of the bait and Tx3 in-line hooks ride against the body to reduce snags.

## REAL GILL®

One look at the new Real Gill Xr50 Rattle Bait and you'll be sold – these are the most realistic bluegill and panfish patterns on the market. In addition to the realism, the details on these Real Gill Xr50's create a more three-dimensional look in the water. It's an exacting, multi-step painting process, but the result is a truly effective bait. Three-dimensional red eyes and Tx3 in-line hooks that ride against the body to reduce snags complete the package.

**THE ONE KNOCKER ALTERNATIVE.** There are times when every angler on the lake is throwing a lipless crankbait. These baits rattle, wiggle and produce fish, but smart fishermen know they can maximize their efforts by throwing one that sounds totally different than the rest of the crowd. That's where the One Klocker Xrk comes in. Its big, single rattle produces a sound unlike any other lipless crankbait – a *thunk-thunk-thunk* instead of the common sound produced by multiple rattles. The XCalibur One Klocker possesses those characteristics anglers expect from a high-quality rattle bait – true running right out of the box, tough, durable components and detailed color patterns – but with a different sound that can be the difference between a few fish and an incredible day on the water.

**ZELL POP™**

MODEL	WEIGHT	SIZE	HOOK SIZE	DEPTH	COLORS
XCalibur Xz2	1/4oz. / 97.3g	2-5/16in. / 5.85cm	#6 In-line Tx3™	Topwater	02, 04, 05, 06, 08, 35, 36
XCalibur Xz3	3/8oz. / 10.6g	2-3/4in. / 6.99cm	#4 In-line Tx3™	Topwater	02, 04, 05, 35, 36, 37

**LADIES AND GENTLEMEN, THE TOPWATER KING!** He's been described as the best topwater fisherman in the world. Zell Rowland single-handedly brought the Rebel Pop-R out of retirement, and the Zell Pop is the topwater chugger/popper/walker he created to do exactly what he wanted. As the most versatile popper on the market, the Zell Pop pops, chugs and even walks-the-dog. High-quality components include a feathered back treble, 3-D red eye, etched scale patterns and the most effective color patterns on the market. Two sizes match any hatch.

**THE LEGEND OF XCALIBUR'S Tx3 HOOKS**

began in Florida. Word quickly spread that a heavy-wire hook had finally been designed to withstand the state's legendary bass. Soon, anglers across the country and Canada discovered each of XCalibur's Tx3 series of hooks presented an advantage they hadn't been able to find for their particular application. XCalibur, in the course of one year, quickly raised even the most critical of eyebrows thanks to Tx3's sharp and durable three-sided cutting point.

XCalibur Tx3 hooks feature the Tx3 hook point. This three-sided cutting point is extremely sharp and durable. XCalibur's Tx3 rotating treble hooks feature a 6° counter-rotating shaft designed to help the hook penetrate with minimal force. These trebles have proven to be extremely effective at hooking and holding jumping or hard-charging fish.

**XCALIBUR OFFERS THE FINEST TERMINAL TACKLE TODAY.**

Extensive research and development has led to a line of technologically advanced terminal tackle components. XCalibur has also made it easier and more time efficient to change lures with our non-corrosive and ultra-reliable XCalibur Hold-Tite Snaps. Turning to a well-kept secret, XCalibur Rattles produce realistic sounds that are certain to catch the attention of predator gamefish.

**LEAD IS DEAD.** XCalibur Tg Weights, the most technologically advanced weights available today, provide an environmentally safe alternative to lead. Comprised of tungsten, XCalibur Tg Weights do not add pollutants to water, our most precious resource. Plus, Tg Weights are 25 percent smaller and much more sensitive than lead, making them more efficient fishing tools.
