

YUM[®]

2014 New Product Guide

 **Bait School Technology[®]**

Bait School Technology®

Terry "BIG Show"
Scroggins

YUM Soft Plastics brings anglers a new line of multi-lure rigs under the umbrella sub-brand "Bait School Technology." Bait School Technology embraces the philosophy of mimicking schools of baitfish, and brings this ability to every angler, regardless of skill, situation or equipment. It's a whole new world, and Bait School Technology aims to lead anglers to a new, more-natural way to catch more and bigger fish than ever before.

The multi-lure rig phenomenon spawned the concept of Bait School Technology, a revolutionary and more natural way of thinking about fishing. Baitfish live in schools, and Bait School Technology takes advantage of this normal activity by presenting not one, but a small school of lures at the same time. How many times have you reeled in a fish and seen others swimming with it? Fish are like other animals, when one snags food, others come after it. With a Bait School Technology rig, the angler is presenting an extra lure or three for those excited, following fish to strike.

Bait School Technology rigs put everyone in the game. Lightweight rigs allow anglers to use a multi-lure rig on any type of rod and reel, from a simple Zebco 33 to the sturdiest of baitcaster. While first-generation multi-lure rigs were made for professional level equipment and big suspended bass, Bait School Technology features a full line of rigs to match any angler's style of fishing.

Bait School Technology rigs allow anglers to use a multi-lure rig in shallow water, through sparse grass, and use any type of lure, from topwaters to bottom bouncers. Several also can be used by bait fishermen or catfishermen to up their odds of catching more fish.

Bait School Technology brings multi-lure rigs to the masses and expands the use of these phenomenal rigs with top quality components and manufacturing.

Bait School Technology®

YUMbrella®

Double Up®

Why throw only one lure when you can throw two? The YUMbrella™ Double Up™ allows you to fish any two lures – or any combination of different lures – at the same time!

Shad and other baitfish live and travel in schools. When was the last time you saw one shad swimming by itself? Outside of the one you see trying to escape from being eaten, you always see shad in schools. Rigs such as the Double Up™ and YUMbrella™ allow anglers to present multiple lures to entice fish into chasing a school of bait instead of one, unnatural baitfish swimming alone.

- Affordable for all anglers to play in the umbrella/multiple rig game.
- The Double Up™ is castable on any equipment.
- Throw two baits at one time to mimic a bait school.
- Any lure any combination, the only limit is the angler's imagination.
- Many times fish don't swim alone, and the Double Up™ gives anglers the chance to catch them all, two at a time!

YUMBDU2
YUMbrella® Double Up®

Bait School Technology[®] YUMBrella[®]

The YUMBrella multi-lure rig by YUM quickly established itself as the No. 1 rig in fishing for strength, durability and effectiveness.

"I've fished a bunch of different rigs," said top FLW pro Jason Christie, "and the YUMBrella is definitely the toughest, best-made one I've thrown. I couldn't get a day's fishing out of some of the others without breaking. I've got one on now that I've fished seven 12-hour days with – and caught some giant bass – and it's still going strong."

Tennessee Special

Foxy Lady

The YUMBrella is constructed using stainless steel wire that has been repeatedly heat treated for strength and memory, and it's held together with a true coupler system to create a rig anglers can depend on. Add tough snaps and swivels and a rattle in the head, and the YUMBrella gives anglers exactly what they're looking for – an advantage with a lure that performs with shocking results. We make believers every day.

Bait School Technology[®] YUMBrella[®] Ultralight Tripod[®]

The YUMBrella Tripod allows anglers to throw three YUM Money Minnows or other lures at once, simulating a small school of baitfish. The Rig features incredible strength and durability, ensuring the lure arms never break free. Each lure arm is stainless steel that has been repeatedly heat-treated to create a Super-Wire unmatched in strength and memory. In addition, the top-quality snaps and swivels ensure flawless performance on big fish.

Whether fished in areas where only three hooks are allowed or as a more-subtle bait school presentation, the YUMBrella Ultralight Tripod lets anglers go catch fish.

YUMBrella®

Flash Mob® Jr.

- Smaller size and weight means it can be cast on any type of equipment.
- Tremendous flash creates the image of a bigger school of fish.
- Super-wire stainless steel and durable construction.

An ultralight version of our YUMBrella Flash Mob! Still has all of the features that made the YUMBrella the leader in the category – super-tough stainless steel, heat treated wire, strong snaps and swivels, but now can be thrown on any type of rod and reel. Now in your choice of four Willow blades or four Colorado blades midway down each outer arm to produce tremendous flash and vibration and create the image of a bigger school of baitfish.

Bait School Technology®

YUMBrella®

Flash Mob®

More flash equals more fish. The YUMBrella Flash Mob 5-wire multi-bait rig has all of the features that made the YUMBrella the leader in the category – super-tough stainless steel, heat treated wire, strong snaps and swivels and one of the toughest wire connections in the industry – and adds four willow blades midway down each outer arm to produce tremendous flash and vibration and create the image of a bigger school of baitfish.

Any time bass – largemouth, smallmouth, stripers – are the target, the Flash Mob will get their attention and provoke them into action even when they're suspended and lethargic. Got fish holding tight to structure on bottom? Drag a Flash Mob near and you'll get their attention.

- Four spinning blades provide flash and vibration.
- Creates the illusion of a bigger school of baitfish.
- Perfect for largemouth, smallmouth, striped bass.
- Powered by four No. 4 counter-rotating Willowleaf blades.

YUMBrella® Flash Mob®
YUMBWSB5TSNR - Tennessee Special

Bait School Technology®

YUMbrella®

Ultralight

Plenty of instances call for a smaller multi-lure rig. The YUMbrella Ultralight is a downsized 5-wire YUMbrella rig. The YUMbrella Ultralight can be fished on any type of equipment and is terror on largemouth, smallmouth and spotted bass, crappie, white bass and just about any predator fish.

The YUMbrella Ultralight is made with the same super-tough stainless steel wire and durable connections as the full-sized model. It doesn't matter if you're fishing a stream for smallmouth, a reservoir during the shad spawn, or a pond for crappie, the YUMbrella Ultralight creates the illusion of a small school of baitfish and provokes strikes from even inactive fish.

- Smaller size and weight means it can be cast on any type of equipment.
- Tremendous flash creates the image of a bigger school of fish.
- Super-wire stainless steel and durable construction.

Bait School Technology®

YUMbrella®

NEW SIZES!

Money Head™ Jig

YUMbrella Money Head Jigs are specifically designed for use with multi-lure rigs like the YUMbrella, with big line ties that make connection to the snaps quick and easy. A tough outer coating resists chipping and adds durability. Wide-gap hooks are super-strong and razor sharp to hook and hold big fish.

YUM Money Head Jigs come in three sizes, with hook sizes matched to the most common sized swimbaits used on castable umbrella rigs. Each package contains 5 jigheads to fully outfit your YUMbrella, Flash Mob Jr. or other castable umbrella rig.

The narrow shape of the head cuts water perfectly and enhances the action of the swimbait. Money Head Jigs were designed by pro anglers specifically for use with these rigs.

Accessory Kit

Instead of wasting precious fishing time searching your jighead box for the five right jigheads and then shuffling through storage lockers for a quintuplet of perfect swimbaits, how about just grabbing a single pack you know has everything you need? These two YUMbrella Mud Minnow Kits were created to make castable umbrella rig fishing easy. The Kit comes with five 4-inch YUM Mud Minnows and five 1/8-ounce round ball jigheads with super-sharp 3/0 hooks. It's everything you need to quickly rig up and catch fish. Available in two versions, one with Pearl/Silver Flake Mud Minnows and one in Tennessee Shad.

YUMbrella®

Accessory Kit

Purchasing a YUMbrella or other multi-lure rig is a two-part (and sometimes three-part) process, and the decision of what to swim with your YUMbrella can be confusing. YUM makes it quick and easy with the YUMbrella Accessory Kit. The Accessory Kit contains everything you need to rig out a YUMbrella or other multi-lure rig, with top-quality, effective swimbaits and jigheads designed specifically for these rigs by professional anglers who refined the technique.

- Four 3.5-inch Money Minnows with matching 3/16-ounce (3/0 Hook) Money Head™ Jigs
- One 5-inch Money Minnow with matching 1/4-ounce (5/0 Hook) Money Head™ Jig
- Money Minnows feature 3D Eyes and plenty of swimming action, even in cold water or slow retrieves.

The new YUM Money Head Jigs were designed specifically for swimbaits and multi-lure rigs, featuring a baitfish-head shape and big line tie to make it easy to attach to big rig swivels. A tough outer coat resists chipping.

YUMB5KIT - YUMbrella® Accessory Kit

Bait School Technology[®]

YUMbrella[®]

3-Wire Kit

Grab it and go. Whether you're fishing where only three hooks are allowed or for bass that see 5-wire rigs all day long, the YUMbrella 3-Wire Kit gives you the advantage. The YUMbrella 3-Wire is manufactured with the same stainless steel, heat-treated super-wire and includes the same tough hardware as the 5-wire version. And as a kit, it includes jigheads and swimbait specifically designed and selected for multi-lure rigs, making it easy to grab it and get on the water fast.

YUMbrella 3-Wire Kit includes the multi-lure rig in Tennessee Special color pattern, three pearl-colored 1/8-ounce roundhead jigs and three 4-inch pearl/silver flake Mud Minnows. The jighead has a tough 3/0 hook for sure hook-ups on slashing fish, and the Mud Minnows perfectly mimic the shape and swimming motion of a slender baitfish.

YUMbrella[®]

Accessory Kit

The YUMbrella Flash Mob Jr. Kits make fishing a castable umbrella rig more efficient and effective than ever. Two versions are available, one with five wire lure arms and the other with three, and each comes with all of the jigheads and soft-plastics you need to catch fish on the most effective rig on the market. The 3-Wire Kit comes with a lightweight Flash Mob Jr. castable umbrella rig featuring willowleaf spinning blades positioned at the midpoint of each lure arm, plus three 1/8-ounce round ball jigheads with 2/0 hooks and three Pearl White curtail grubs. The 5-Wire Kit contains a Flash Mob Jr. with five lure arms. Willowleaf blades are attached at the halfway point of each of the four outer lure arms, and the kit also includes five 1/8-ounce round ball jigheads with 2/0 hooks and five Pearl White curtail grubs.

(926) TENNESSEE SHAD

Built in hook slot for easier and more consistent rigging.

This swimbait from YUM Bait Company is right on the money! With an ultra-realistic profile, natural swimming action and super-soft body, the YUM Money Minnow has proven itself irresistible to bass and other gamefish. A unique hook slot in the Money Minnow's belly allows for very efficient hooksets and at the same time facilitates straight rigging and true-running performance. The Money Minnow swims sweetly, even when reeled at a very slow speed, which can be the key to enticing strikes from heavyweight fish.

YUM Soft Plastics' F2 Dinger is the same Dinger that instantly became a classic bass lure, but it's made even better with the infusion of new F2 attractant and additional colors. Now this incredible lure consistently dispenses the most potent attractant on the market while working its bass-hypnotizing magic. One of the most versatile soft plastics on the market, the YUM F2 Dinger can be Texas, Carolina and wacky rigged, weighted or weightless, and catches bass when other lures fail.

Mighty Craw™

Mighty Craw

PRODUCT NUMBER	LENGTH	PACK COUNT	AVAILABLE COLORS
YUMMYC3	3.25"	12	All colors shown

Action in slow motion describes the YUM F2 Mighty Craw. No matter how slowly you work it or how little weight is added, the Mighty Craw's elongated claws flap and move - perfect for post-front days or on pressured bass. Four added legs on the body also move to create maximum water disturbance. Mighty Craw performs when flipped, pitched, on a bare jighead or as a jig trailer.

Wooly Bully™

YUM Soft Plastics' Wooly Bully is a flipper's dream bait. At 3.5-inches in length it presents a substantial profile while the narrow width provides an erratic glide and the ridged surface and frantically flailing claws create tremendous water displacement and action. To top it off, the Wooly Bully is infused with YUM F2 attractant, the most potent on the market.

(155) ULTIMATE CRAW

YUM

Mighty Bug™

(01) BLACK NEON

(02) WATERMELON RED

YUM Soft Plastics' F2 Mighty Bug is a versatile creature bait infused with the most-potent attractant on the market. The Mighty Bug features six active appendages and a tri-segmented body to produce more water displacement than any other creature bait. Four small kicking legs and two longer claw-like swimming appendages create panicked action with the slightest twitch. The segmented body causes it to undulate on the swim. Combine these fish-attracting features with the most-effective attractant and you've got a winner.

The F2 Mighty Bug creature bait comes in 3-inch and 3.75-inch versions and all of the most productive colors. The F2 Mighty Bug can be Texas rigged and cast, pitched or flipped, Carolina rigged, threaded on a jighead and a variety of other hooking methods and fishing techniques.

Mighty Bug			
PRODUCT NUMBER	LENGTH	PACK COUNT	AVAILABLE COLORS
YUMMB3	3.0"	10	All colors shown
YUMMB4	3.75"	8	All colors shown

The claws on a crawfish are always moving. Likewise, the claws on the F2 enhanced YUM Craw Chunk are oversized yet thin, with thicker, ribbed ends so they undulate with every movement of the rod or smallest breath of current. They're attached to a realistic, meaty, body perfect for use as a jig trailer or for flippin' and pitchin' on a Texas rig.

YUMW4	4.25"	8	All colors shown

The F2 Wooly Bug has it all – great action, big water displacement, enticing glide, bass-catching profile and the most effective attractant on the market infused during the molding process. The total-package creature bait is fantastic flipping, pitching or simply bumping bottom on a Texas rig for largemouth and smallmouth bass.

Craw Papi™

(135) PB&J

Craw Papi			
PRODUCT NUMBER	LENGTH	BAG COUNT	AVAILABLE COLORS
YUMCP2	2.75"	12	All colors except 148
YUMCP3	3.75"	10	All colors

The **Craw Papi** is durable, yet velvety soft to the touch. It has one of the most realistic shapes of any slim profile crawfish imitation. The natural, oversized pinchers, are filled with action. Because the Craw Papi features a solid tail, it makes a great jig trailer and can be equally effective on a Carolina or Texas rig.

YUMMC3	3.75"	8	All colors shown

YUM Soft Plastics' F2 Money Craw produces more water displacement and vibration than any other soft plastic craw with its paddle-like claws, and now that it's infused with the most potent attractant on the market, bass can't resist. The Money Craw comes in a 3.75-inch size and color patterns that bass anglers trust. In short, the Money Craw is the go-to for jig trailers, Texas rigs, Carolina rigs and more. YUM F2 just took over the top spot in bass attractants. It's documented. It's been proven in the strictest clinical scientific testing that bass prefer F2.

CrawBug®

A crawfish is to a bass what a steak is to a cowboy — the ultimate meal. The YUM CrawBug is nature re-created. This bait is designed with three-dimensional features never before seen in a soft plastic lure. Amazingly realistic detail, a specially designed hollow body and super-soft texture combine to imitate a fleeing crawfish perfectly. Add in our F2 Attractant and you have the most lifelike crawfish imitation ever designed. **Flip it, rig it or jig it. This bait does its job.**

Salleemander			
PRODUCT NUMBER	LENGTH	PACK COUNT	AVAILABLE COLORS
YUMSM6	6.0"	8	All colors shown

YUM Soft Plastics' F2 Salleemander features swimming action never before seen from a soft plastic lizard, and because it's infused with F2 attractant it continuously releases the most potent attractant on the market. With four crawling-action legs and a paddle tail that creates a realistic swimming action to the entire lizard, the Salleemander creates tremendous water displacement. The 6-inch Salleemander is perfect for Carolina rigs and Texas rigs, but also catches bass weightless worked over grass or retrieved just under the surface.

(155) ULTIMATE CRAW

Lizard™

The YUM Lizard's legs and thin ribbon tail produce an irresistible swimming action. Equally important in this lizard is the super soft texture that ensures solid hooksets and lifelike color reproduction. This isn't just a springtime bait. It's an anytime bait.

YUM's 4-inch F2 2ube features the supple-but-tough soft plastic anglers depend on and the addition of F2 Attractant to prompt bass to hit and hold on. All-natural F2 was independently tested to be 30 percent more effective than the leading brand, and it's infused into the baits during molding for consistent, constant scent dispersal.

Designed by top walleye circuit pros, the wide curl tail produces fish-attracting vibration and action. Like all YUM baits, the Walleye Grub is fortified with YUM F2 attractant to trigger even the finicky glassseye. Fish it vertically over the flats on a jighead, or in combination with live bait and you're sure to put some 'eyes in the boat.
