America's Favorite Fishing Lures

The first Rebel® lure introduced was the 3 1/2" (F10) Rebel® Minnow. Its success came almost overnight. Demand quickly grew for other sizes and styles of the now legendary minnows. It wasn't long before anglers everywhere began asking for other style lures... models that would sink, others that would run deep, topwater poppers, and later, crankbaits. A host of Rebel lures, some early models, are now legends... lures like the "Broken Back" (jointed) minnow, the Pop-R®, Wee-R® and the Rebel® Crawfish™ series. These lures remain today as productive favorites in the tackle boxes of pro and novice anglers around the world.

NEW! Rebel® Tracdown® Minnow™

Unequaled in action and productivity, the Tracdown sinking minnow sinks at a rate of one foot per second. This allows the angler to count his lure down and retrieve it at the exact depth of located suspended fish.

Rebel® Ultralights

What was the first lure you ever used? For many, it was one of Rebel's ultralights. In fact, it is likely no other line of lures has simultaneously caught as many fish and fishermen. Whether an expert wading their favorite smallmouth stream or a young angler fishing along the bank of a nearby pond, Rebel® ultralights produce fish for everyone, every time!
