

Instructions for Varmint Guard

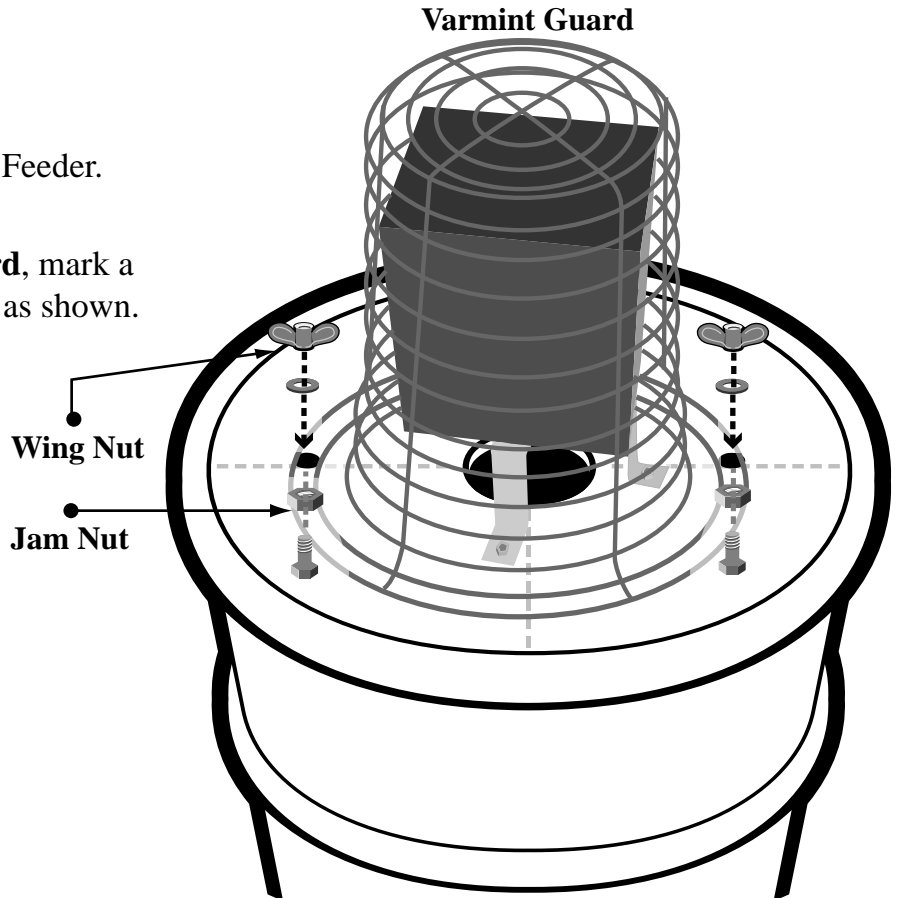

THANK YOU for your purchase of the **Varmint Guard**. Please read this sheet before assembling the unit. If you should have any questions about this product, please contact us using the information below. To help us to better serve you, please complete and mail the enclosed Warranty Card.

I DRILLING YOUR DRUM/BARREL/BUCKET

CAUTION: WEAR EYE PROTECTION

- 1** Position the **Varmint Guard** over your Feeder.
- 2** On opposite sides of the **Varmint Guard**, mark a hole between the circular mounting rim as shown.
- 3** Remove the **Varmint Guard** and drill hole positions using a 5/16" drill bit.

II MOUNTING THE VARMINT GUARD

- 1** From inside the bucket or barrel, place the provided bolts through each hole and secure them to the barrel or bucket using jam nuts.
- 2** Place your **Varmint Guard** over the feeder and onto the two bolts, assuring that the bolts go through the mounting rim. Secure the **Varmint Guard** by placing a washer and wing nut on each bolt and tightening as shown above.

Our Service Department will gladly answer any questions you have.
