HERKY JERKY™

The Herky Jerky pike, muskie and striper lure is a subsurface walk-the-dog lure with a surprise – when paused, the lure wobbles back-and-forth and emits a fish attracting sound. At 6-inches in length, it's a big mouthful and manufactured to take the abuse of a giant muskie or 50-pound striper.

Three versions are available, the Herky Jerky, the 5-inch Herky Jerky Jr., and the Herky Jerky CTS (Close-To-Surface). The Herky Jerky Jr. has all of the fish-catching characteristics of its bigger brother, simply in a smaller package. The Herky Jerky and Herky Jerky Jr. are slow sinking lures that walk-the-dog when retrieved with repeated downward twitches of the rod tip. The Herky Jerky CTS rides just under the surface, walking the dog just like a wounded or panicked baitfish. All three Jerkys come in eight fantastic color patterns.

REAL CRAW™

Bomber is proud to introduce the Real Craw Bomber Model A. Real Craw is more than a series of super-realistic color patterns; it's like an exoskeleton. Not only do the Real Craw Series Model A's feature the most detailed, realistic crawfish looks, but the texture produces a more realistic feel. Raised, blood-red crustacean eyes are positioned at the end of the lure for a truly realistic look.

BALSA MODEL B™

Balsa Model B crankbaits feature traditional balsa wood construction with the new highly advanced Tru-Track™ frame system. The Bomber Tru-Track system is a super tough polycarbonate one-piece frame and paddle that runs through the body of the crankbait. This one piece skeleton is designed with rock solid hook hangers in the belly and tail sections which **eliminate hook hanger failure**—a traditional performance problem with balsa crankbaits.

VALUE SERIES

Three fantastic classic crankbaits are new again from Bomber, with top-quality components and new color patterns. The size 4 and 5 Square A dive to about 3 feet with an irresistible wobble. Five fish-catching color patterns include Fire Tiger, Foxy Shad, Foxy Momma, Baby Bass and Oxbow. The square paddle lip with chamfered corners allow this bait to run over fallen timber and through heavy cover. Wide wobble and Bomber tough! Also new again from Bomber is the 5 size Shallow A, which wakes with the best of them and dives to about 1 foot. Designed for shallow water, the Shallow A wakes with a wide wobble fast or slow. Comes in the same color patterns as the Square A.

MODEL A™

If you were limited to only one crankbait, you'd do well making it a Model A Bomber. A staple with avid fishermen for decades, the Model A's timeless design, workhorse durability and true running dependability define the meaning of a "Go To Lure."

What makes a bait legendary? It has to catch fish. Lots of 'em and do it again and again. That's the Bomber Model A. A proven performer.

For those times the fish want a tighter wiggle or more subtle presentation, the Flat A is the tool for the job. Suspended fish can be particularly hard headed and this near-neutral design gives you the flexibility to target fish at specific depths with specific retrieve speeds. Equally effective fished painstakingly slow or burned for a reaction bite.

FAT FREE SHAD®

A Bassmaster Classic victory and over a million dollars in prize money doesn't happen by accident. When introduced, this flat sided deep runner completely renovated the crankbait market. With an enticing tight action, the Fat Free Shad is responsive with an ease of retrieve never before seen in a bait of its size and running depth.

Add the latest advances in color and reflectivity, realistic 3D eyes and XCalibur Tx³ rotating treble hooks and you have the premier deep-diving crankbait on the market.

PRO LONG A™

The ultimate Bomber jerkbait. Tim Horton has designed this series with painstaking detail to combine unmatched realism and industry finest components. A bait that's all about performance, the Suspending Pro Long A is weighted to suspend horizontally. Jerkbait fishermen are notorious for "tweaking" baits. Here's a bait that's tweaked right out of the package.

DEEP LONG A™

A well-known big fish bait, the Deep Long A employs the Long A's trademark action with a deep diving molded-in lip for durability and out-of-the-package true-running performance. Especially effective when twitched for early season bass or trolled with precision for walleye and salmon.

LONG A™

You won't catch many pros without a jerkbait rigged, no matter the season. That's because the minnow imitator is well known as one of the single most versatile baits. And the Long A is the best of the best when it comes to replicating a life-like swimming action. With a tight wiggle and castable design, the Long A is equally effective for largemouth, smallmouth, stripers, walleye and pike.
