Edwin Evers Xcs300	3/4oz. / 19.8g	3in. / 7.62cm	#2-belly / #2-tail In-line Tx3™	0-3 feet	19, 21, 24, 35, 43, 45, 58, 59, 63, 64

Tx³ trebles

The XCalibur Xcs series of silent (no rattle) shallow-running crankbaits has everything anglers need to pull spooky bass from skinny water. The Xcs series comes in three sizes that will cover a wide range of forage species. The Square Lip series wobbles and semi-rolls to show its flash and the sophisticated color patterns with etched scale patterns seal the deal on shallow-feeding bass. Tx3 In-Line hooks ride up against the body to reduce snags, and the paddle shape helps the bait “bump and run” through cover to catch the big ones.

Xr50

REAL CRAW™

Real Craw is more than the most realistic and effective color pattern on the market – it's an exoskeleton that feels like a living thing in the water. Nothing looks and feels more like a fleeing crawfish than the XCalibur Xr50 in the new Real Craw series. A detailed, multi-step painting process produces a muted color pattern that gives an exacting crawfish look to an already effective lure design. Raised blood-red crustacean eyes are positioned at the tail of the bait and Tx3 in-line hooks ride against the body to reduce snags.

New
FOR 2011

MODEL	WEIGHT	SIZE	HOOK SIZE	DEPTH	COLORS
XCalibur Xr50	5/8oz. / 16.4g	2-1/2in. / 6.5cm	#4-belly / #6-tail In-line Tx3™	Sinker	Available in all colors shown

Xr50

REAL GILL™

One look at the new Real Gill Xr50 Rattle Bait and you'll be sold – these are the most realistic bluegill and panfish patterns on the market. In addition to the realism, the details on these Real Gill Xr50's create a more three-dimensional look in the water. It's an exacting, multi-step painting process, but the result is a truly effective bait. Three-dimensional red eyes and Tx3 in-line hooks that ride against the body to reduce snags complete the package.

THE PERFECT RATTLE BAIT. The XCalibur Xr Rattle Bait series presents the perfect profile, loud, multiple rattles, incredible fish-catching color patterns and the high-tech design that anglers demand. In just a few short years the Xr has become the go-to bait for thousands of anglers when they reach for a lipless crankbait. The detailed design includes etched scale patterns, 3-D eyes, in-line hooks that cut down on snags and the most advanced paint jobs on the market. Whether you're burning it over vegetation, yo-yoing it off the bottom or doing the classic rip-and-drop in submerged vegetation, the XCalibur Xr series runs true and holds up to the abuse of big bass after big bass.

THE ONE KNOCKER ALTERNATIVE. There are times when every angler on the lake is throwing a lipless crankbait. These baits rattle, wiggle and produce fish, but smart fishermen know they can maximize their efforts by throwing one that sounds totally different than the rest of the crowd. That's where the One Klocker Xrk comes in. Its big, single rattle produces a sound unlike any other lipless crankbait – a *thunk-thunk-thunk* instead of the common sound produced by multiple rattles. The XCalibur One Klocker possesses those characteristics anglers expect from a high-quality rattle bait – true running right out of the box, tough, durable components and detailed color patterns – but with a different sound that can be the difference between a few fish and an incredible day on the water.

TWITCH, TWITCH, BOOM! Once an angler tries the XCalibur Xt3 or deeper running Xt3D, he's coming back for more. These Twitch Baits represent the next generation of slender minnow lures. High-tech color patterns, inline hooks that cut down on snags, 3-D eyes, etched scale patterns and XCalibur quality at a reasonable price make the Xt3 series of Twitch Baits top-of-the-line for bass, pike and any other game fish. The Xt3 runs to 5 feet, while the Xt3D doubles that depth, expanding the time and situations when a Twitch Bait is the go-to bait.

XZ2/XZ3

ZELL POP™

MODEL	WEIGHT	SIZE	HOOK SIZE	DEPTH	COLORS
XCalibur Xz2	1/4oz. / 97.3g	2-5/16in. / 5.85cm	#6 In-line Tx3™	Topwater	Available in all colors shown
XCalibur Xz3	3/8oz. / 10.6g	2-3/4in. / 6.99cm	#4 In-line Tx3™	Topwater	Available in all colors shown

LADIES AND GENTLEMEN, THE TOPWATER KING! He's been described as the best topwater fisherman in the world. Zell Rowland single-handedly brought the Rebel Pop-R out of retirement, and the Zell Pop is the topwater chugger/popper/walker he created to do exactly what he wanted. As the most versatile popper on the market, the Zell Pop pops, chugs and even walks-the-dog. High-quality components include a feathered back treble, 3-D red eye, etched scale patterns and the most effective color patterns on the market. Two sizes match any hatch.

THE LEGEND OF XCALIBUR'S Tx3 HOOKS

began in Florida. Word quickly spread that a heavy-wire hook had finally been designed to withstand the state's legendary bass. Soon, anglers across the country and Canada discovered each of XCalibur's Tx3 series of hooks presented an advantage they hadn't been able to find for their particular application. XCalibur, in the course of one year, quickly raised even the most critical of eyebrows thanks to Tx3's sharp and durable three-sided cutting point.

XCalibur Tx3 hooks feature the Tx3 hook point. This three-sided cutting point is extremely sharp and durable. XCalibur's Tx3 rotating treble hooks feature a 6° counter-rotating shaft designed to help the hook penetrate with minimal force. These trebles have proven to be extremely effective at hooking and holding jumping or hard-charging fish.

Bass anglers have been equally impressed with XCalibur Tx3 Wide Gap Worm Hooks. Whether light-wire or X-strong, these hooks have proven to increase hook-up ratios in any fishing situation, from flippin' to Carolina rigging. Anglers across the board are realizing the potential of the Tx3 technology. If not, they're missing the point – literally.

XCALIBUR OFFERS THE FINEST TERMINAL TACKLE

TODAY. Extensive research and development has led to a line of technologically advanced terminal tackle components. XCalibur's Tear Drop Split Rings not only prevent a knot from slipping into the split-ring gap and becoming frayed but the unique design allows an angler to enhance the action of a bait by using the wide or narrow end of the split ring as a pull-point. XCalibur has also made it easier and more time efficient to change lures with our non-corrosive and ultra-reliable XCalibur Hold-Tite Snaps. Turning to a well-kept secret, XCalibur Rattles produce realistic sounds that are certain to catch the attention of predator gamefish.

LEAD IS DEAD. XCalibur Tg Weights, the most technologically advanced weights available today, provide an environmentally safe alternative to lead. Comprised of tungsten, XCalibur Tg Weights do not add pollutants to water, our most precious resource. Plus, Tg Weights are 25 percent smaller and much more sensitive than lead, making them more efficient fishing tools.

HOLD-TITE™ SNAPS

DESCRIPTION	SIZE	QTY	ITEM#
